

time, until December 1, 2023, to complete testing.²

As of May 19, 2023, National Fuel is no longer testing Well 7451 by withdrawing gas from the well. National Fuel does not intend to undertake any further withdrawals from the well. Currently, National Fuel is working to finalize its report on Well 7451 and anticipates that the report will be finalized by December 1, 2024, due to the complexity of the data and modeling involved in evaluating data National Fuel has collected and reported to the Commission in its quarterly Beech Hill reports.³

This notice establishes a 15-calendar day intervention and comment period deadline. Any person wishing to comment on National Fuel's request for an extension of time may do so. No reply comments or answers will be considered. If you wish to obtain legal status by becoming a party to the proceedings for this request, you should, on or before the comment date stated below, file a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (NGA) (18 CFR 157.10).

As a matter of practice, the Commission itself generally acts on requests for extensions of time to complete construction for NGA facilities when such requests are contested before order issuance. For those extension requests that are contested,⁴ the Commission will aim to issue an order acting on the request within 45 days.⁵ The Commission will address all arguments relating to whether the applicant has demonstrated there is good cause to grant the extension.⁶ The Commission will not consider arguments that re-litigate the issuance of the certificate order, including whether the Commission properly found the project to be in the public convenience and necessity and whether the Commission's environmental analysis for the certificate complied with the National Environmental Policy Act

³ See, National Fuel's Quarterly Reports for its Beech Hill Storage Field, beginning with its first quarterly report filed on July 31, 2017 and continuing to its most recent report filed on November 16, 2020 covering the period April 1, 2020 through June 30, 2020, in CP14-501, et al.

⁴ Contested proceedings are those where an intervenor disputes any material issue of the filing, 18 CFR 385.2201(c)(1).

(NEPA).⁷ At the time a pipeline requests an extension of time, orders on certificates of public convenience and necessity are final and the Commission will not re-litigate their issuance.⁸ The Director of the Office of Energy Projects, or his or her designee, will act on all of those extension requests that are uncontested.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or

pesticide manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).

B. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through [regulations.gov](https://www.epa.gov/regulations.gov) or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at <https://www.epa.gov/dockets/commenting-epa-dockets>.

ENVIRONMENTAL PROTECTION AGENCY

[FRL–11568–01–OW]

Request for Nominations for the Environmental Financial Advisory Board (EFAB)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Request for nominations of candidates to the Environmental Financial Advisory Board.

SUMMARY: The U.S. Environmental Protection Agency (EPA) invites nominations of qualified candidates to be considered for appointment to the Environmental Financial Advisory Board (the Board or EFAB). The Board provides advice to EPA on ways to lower the costs of, and increase investments in, environmental and public health protection. Appointments will be made by the Administrator and will be announced in June 2024.

DATES: Nominations should be submitted in time to arrive no later than December 31, 2023.

ADDRESSES: Nominations should be sent via email to efab@epa.gov.

FOR FURTHER INFORMATION CONTACT: Any member of the public who wants further information concerning the nomination process may contact Tara Johnson via telephone/voicemail at (202) 809–7368 or email to efab@epa.gov. General information concerning the EFAB is available at www.epa.gov/waterfinancecenter/efab.

SUPPLEMENTARY INFORMATION:

Background: The EFAB is an EPA advisory committee chartered under the Federal Advisory Committee Act (FACA), 5 U.S.C., app. 2, to provide advice and recommendations to EPA on innovative approaches to financing environmental programs, projects, and activities. The Board was established in 1989 to provide advice and recommendations to EPA. Since inception, the Board has advised the EPA on a wide-ranging set of issues including but not limited to the following:

- Creating incentives to increase private investment in the provision of environmental services and removing or reducing constraints on private involvement wherever possible;
 - Developing new and innovative environmental financing approaches and supporting and encouraging the use of cost-effective existing approaches;
 - Identifying approaches specifically targeted to small community financing;
 - Assessing government strategies for implementing public-private partnerships, including privatization, operations and maintenance issues, and other alternative financing mechanisms;
 - Improving governmental principles of accounting and disclosure standards to help improve the sustainability of environmental programs;
 - Increasing the capacity of state and local governments to carry out their respective environmental programs under current Federal laws;
 - Increasing the total investment in environmental protection and stewardship of public and private environmental resources to help ease the environmental financing challenge facing our nation; and
 - Developing innovative investment models and market-based approaches that increase the long-term resiliency of infrastructure.
- The Board's recent work has included:
- Options for the development of the Greenhouse Gas Reduction Fund authorized under the Inflation Reduction Act; and
 - Recommendations for catalyzing pollution prevention finance, enhancing
