Food and Nutrition Service

Title: Performance Reporting System, Management Evaluation.

OMB Control Number: 0584-0010.

Summary of Collection: The purpose of the Performance Reporting System is to ensure that each State agency and project area is operating the Supplemental Nutrition Assistance Program (SNAP) in accordance with the Act, regulations, and the State agency's Plan of Operation. Section 11 of the Food and Nutrition Act (the Act) of 2008 requires that State agencies maintain necessary records to ascertain that SNAP is operating in compliance with the Act and regulations and must make these records available to the Food and Nutrition Service (FNS) for inspection.

Need and Use of the Information: FNS will use the information to evaluate state agency operations and to collect information that is necessary to develop solutions to improve the State's administration of SNAP policy and procedures. Each State agency is required to submit one review schedule every one, two, or three years, depending on the project areas make-up of the state.

Description of Respondents: State, Local, or Tribal Government.

Number of Respondents: 53.

Frequency of Responses: Recordkeeping; Reporting: Annually.

Total Burden Hours: 492,222.

Food and Nutrition Service

Title: Generic Clearance to Conduct Formative Research.

OMB Control Number: 0584-0524.

Summary of Collection: This information collection is based on section 19 of the Child Nutrition Act of 1966 (42 U.S.C. 1787) Section 5 of the Richard B. Russell National School Lunch Act (42 U.S.C. 1754) and section 11(f) of the Food and Nutrition Act of 2008 (7 U.S.C. 2020). Diet has a significant impact on the health of citizens and is linked to four leading causes of disease, which can reduce the quality of life and cause premature death. While these diet-related problems affect all Americans, they have a greater impact on the disadvantaged populations reached by many of the Food and Nutrition Service (FNS)

programs. One of FNS' goals includes improving the nutrition of children and low-income families by providing access to program benefits and nutrition education. The basis of FNS' approach rests on the philosophies that all health communications and social marketing activities must be science-based, theoretically grounded, audience-driven, and results-oriented. FNS will collect information through formative research methods that will include focus groups, interviews (dyad, triad, telephone, etc.), surveys and Web-based information gathering tools.

Need and Use of the Information: FNS will collect information to provide formative input and feedback on how best to reach and motivate the targeted population. The collected information will provide input regarding the potential use of materials and products during both the developmental and testing stages. FNS will also collect information regarding effective nutrition education and outreach initiatives being implemented by State agencies that administer nutrition assistance programs to address critical nutrition program access issues.

I. Abstract

The Director of the United States Patent and Trademark Office (USPTO) has the authority to establish regulations governing the conduct and discipline of agents, attorneys, or other persons representing applicants and other parties before the USPTO (35 U.S.C. 2, 32 and 33). The USPTO Code of Professional Responsibility (37 CFR 10.20 to 10.112) describes how attorneys or practitioners should conduct themselves professionally and outlines their responsibilities for recordkeeping and reporting violations or complaints of misconduct to the USPTO, while the Investigations and Disciplinary Proceedings rules (37 CFR 11.19 to 11.61) dictate how the USPTO can discipline attorneys and practitioners.

The USPTO Code of Professional Responsibility requires an attorney or agent to maintain complete records of all funds, securities, and other properties of clients coming into his or
