SUPPLEMENTARY INFORMATION: OMB regulations at 5 CFR 1320, which implement provisions of the Paperwork Reduction Act of 1995 (Pub. L. 104-13), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities [see 5 CFR 1320.8(d)]. This notice identifies an information collection that OSMRE will be submitting to OMB for extension. This collection is contained in 30 CFR Part 870—Abandoned Mine Reclamation Fund—Fee Collection and Coal Production Reporting, and the implementing form OSM-1—Coal Reclamation Fee Report. OSMRE will request a 3-year term of approval for this information collection activity.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this collection is 1029-0063. Responses are mandatory.

Comments are invited on: (1) The need for the collection of information for the performance of the functions of the agency; (2) the accuracy of the agency's burden estimates; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the information collection burden on respondents, such as use of automated means of collection of the information. A summary of the public comments will be included in OSMRE's submission of the information collection request to OMB.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Powered Platforms for Building Maintenance Standard information collection requirements codified in regulations 29 CFR 1910.66, which requires that a covered employer develop and implement a written emergency action plan for each type of powered platform operation. The plan must explain the emergency procedures that a worker is to follow upon encountering a disruption of the power supply, equipment failure, or other emergency. More specifically, the Standard requires the employer to develop and maintain a written emergency action plan and work plan for training; to affix a load rating plate to each suspended unit; to label each emergency electric operating device with instructions for its use; to attach a tag to one of the fastenings holding a suspension wire rope; to prepare and to maintain a written certification record of the inspection and testing of each building-support structure, component of a powered platform, powered platform facility, and suspension wire rope. Occupational Safety and Health Act section 8 authorizes this information collection. See 29 U.S.C. 657.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1218-0121.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on July 31, 2014. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on February 18, 2014 (79 FR 9282).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**.
