BILLING CODE 6820-EP-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Proposed Information Collection Activity; Comment Request

Title: Regional Partnership Grant (RPG) Program Data Collection.

OMB No.: 0970-0353.

Description

On September 30, 2007, the Administration for Children and Families (ACF) Children's Bureau awarded multi-year grants to 53 regional partnerships grantees (RPGs) to improve the safety, permanency and well-being of children affected by methamphetamine or other substance abuse who have been removed or are at risk of removal from their home. The Child and Family Services Improvement Act of 2006, the authorizing legislation for the RPG program, required that a set of performance indicators be established to periodically assess the grantees' outcomes. The legislation mandated that these performance indicators be developed through a consultative process involving ACF, the Substance Abuse and Mental Health Services Administration (SAMHSA), and representatives of the State or Tribal agencies who are members of the regional partnerships. The legislation also requires the Secretary of the Department of Health and Human Services to submit annually to Congress a report that includes the performance indicators established under this grant program.

The final set of RPG performance indicators was approved by ACF and disseminated to the funded grantees in January 2008. It includes a total of 23 indicators across four outcome domains: Child/youth (9 indicators), adult (7 indicators), family/relationship (5 indicators), and regional partnership/service capacity (2 indicators). It also includes a core set of child and adult demographic elements that will provide important context needed to properly analyze, explain and understand the outcomes. No other national data collection measures these critical child, adult, family, and RPG outcomes specifically for these children and
