POLICY JUSTIFICATION

Morocco – Gulfstream G-550 Aircraft

The Government of Morocco has requested a possible sale of one Gulfstream G-550 aircraft, 1 spare BR700-710C4-11 GmbH Engine, aircraft ferry services, spare and repair parts, support and test equipment, publications and technical documentation, personnel training and training equipment, contractor technical and logistics personnel services, and other related elements of logistics support. The estimated cost is \$142 million.

This sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been and continues to be an important force for political stability and economic progress in North Africa.

The Royal Moroccan Air Force (RMAF) will use this new aircraft to provide safe, secure, and dedicated air transport for its Head of State. Morocco will have no difficulty absorbing this aircraft into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be Gulfstream Aerospace in Savannah, GA, Honeywell Aerospace in Phoenix, AZ, and Flight Safety International in New York, NY. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require multiple trips to Morocco involving ten U.S. Government and contractor representatives for technical reviews/support, program management, and training over a five-year period.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Dated: May 27, 2009.
