Petition for Exemption

Docket No.: FAA–2020–0528.

Petitioner: Delta Engineering.

Section(s) of 14 CFR Affected: §§ 25.855, 25.857, and 25.858.

Description of Relief Sought: Delta Engineering is seeking relief from certain fire protection requirements in order to obtain supplemental type certificate approval of a type design change for multiple airplane models from multiple airplane manufacturers.

The type design change would allow the airplane operators to remove passenger seats to transport cargo, subject to the FAA’s conditions, on the floor of the main deck of transport category airplanes without revenue passengers onboard. COVID–19 has dramatically reduced the demand for commercial air travel. Due to this extreme reduction in demand, passenger carriers now have the capacity to carry cargo, including critical medical cargo, in-cabin. The relief that would be provided by this exemption would also support the need to replace the cargo capacity provided on airplanes normally flown by passenger carriers.

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****Notice of Intent of Waiver With Respect to Land; Indianapolis International Airport, Indianapolis, Indiana****AGENCY:** Federal Aviation Administration (FAA), DOT.**ACTION:** Notice.

SUMMARY: The FAA is considering a proposal to change 24.813 acres of airport land from aeronautical use to non-aeronautical use and to authorize the sale of airport property located at Indianapolis International Airport, Indianapolis, Indiana. The aforementioned land is not needed for aeronautical use. The land is located east of Ronald Reagan Parkway, on the northwest side of the airport. It is currently comprised of an agricultural field, woods, and a small storage building. The proposed future non-aeronautical land use is a life science park that will include buildings, parking and roadways.

DATES: Comments must be received on or before August 31, 2020.
