

ENVIRONMENTAL PROTECTION AGENCY**[FRL-6987-7]****Chesapeake Bay Program FY2002 Request for Proposals**

The U.S. Environmental Protection Agency, Chesapeake Bay Program is issuing a request for proposals (RFP) that will further goals of the Chesapeake 2000 agreement. Up to 750,000 dollars may be available for Fiscal Year 2002. The Chesapeake Bay Program is seeking innovative, cost-effective proposals to accomplish the outcomes listed in the RFP. These outcomes were designed to help meet the Chesapeake 2000 goals. Any nonprofit organization, federal, state or local government agency, interstate agency, college or university is eligible to submit proposals in response to the RFP. Funding will be provided to an organization under the authority of Clean Water Act, section 117.

The RFP will be available May 30, 2001 at the following website: <http://www.epa.edu/r3/chespk/> You may receive a paper copy by calling Kim Scalia at 214-814-5421 or by e-mail at scalia.kim@epa.gov or by calling Lori Mackey at 410-267-5715 or by e-mail at mackey.lori@epa.gov. All proposals must be postmarked by Monday, July 16, 2001. Any late, incomplete, or faxed proposals will not be considered.

Diana Esher,*Acting Director, Chesapeake Bay Program Office.*

BILLING CODE 6560-50-M**ENVIRONMENTAL PROTECTION AGENCY****[OW-FRL-6987-2]****Beaches Environmental Assessment and Coastal Health Act****AGENCY:** Environmental Protection Agency.**ACTION:** Notice of Availability of Grants for Development of Coastal Recreation Water Monitoring and Public Notification Under the Beaches Environmental Assessment and Coastal Health Act.

SUMMARY: The Beaches Environmental Assessment and Coastal Health Act (BEACH Act) signed into law on October 10, 2000, amends the Clean Water Act (CWA) to reduce the risk of disease to users of the Nation's recreational waters. The BEACH Act authorizes the U.S. Environmental

Protection Agency (EPA) to award program development and implementation grants to eligible States, Territories, Tribes, and local governments to support microbiological testing and monitoring of coastal recreation waters, including the Great Lakes, that are adjacent to beaches or similar points of access used by the public. BEACH Act grants also provide support for development and implementation of programs to notify the public of the potential exposure to disease-causing microorganisms in coastal recreation waters. EPA is now encouraging coastal States and Territories to apply for BEACH Act Grants for Program Development (referred to as Development Grants) to develop effective and comprehensive coastal recreation water monitoring and public notification programs.

DATES: Submit your application on or before July 30, 2001.

ADDRESSES: You must send your application to the appropriate Regional Grant Coordinator listed in this notice under **SUPPLEMENTARY INFORMATION** section VII.

FOR FURTHER INFORMATION CONTACT: Charles Kovatch, 202-260-3754.

SUPPLEMENTARY INFORMATION:**I. Grant Program***What Is the Statutory Authority for the Development Grants?*

The statutory authority for BEACH grants section 406(b) of the Clean Water Act as amended by the BEACH Act, Public Law 106-284, 114 Stat. 970 (2000). It provides in part: "The Administrator may make grants to States and local governments to develop and implement programs for monitoring and notification for coastal recreation waters adjacent to beaches or similar points of access that are used by the public."

What Activities Are Eligible for Funding Under the Development Grants in Fiscal Year 2001?

In Fiscal Year 2001, EPA intends to award grants authorized under the BEACH Act to support the development of coastal recreation water monitoring and public notification programs. The BEACH Act requires EPA to publish performance criteria for monitoring and notification of coastal recreation waters by April 2002. EPA expects to publish performance criteria for implementation of coastal recreation water monitoring and public notification programs in October 2001. In fiscal year 2002 and beyond, if funds are appropriated to support this program, EPA expects to make grants to also support implementation of monitoring and

notification programs that are consistent with EPA's performance criteria.

II. Funding and Eligibility*Who Is Eligible to Apply for Development Grant Funds Under This Federal Register Notice?*

Coastal and Great Lake States are eligible for Development Grants to develop and implement monitoring and notification programs. The term "State" is defined in section 502 of the Clean Water Act to include the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and the Trust Territory of the Pacific Islands. However, the Trust Territory of the Pacific Islands no longer exists. The Marshall Islands, the Federated States of Micronesia, and Palau, which were previously entities within the Trust Territory of the Pacific Islands, have entered into Compacts of Free Association with the Government of the United States. As a result, each is now a sovereign, self-governing entity and, as such, is no longer eligible to receive grants as a Territory or possession of the United States.

Are Local Governments Eligible for Funding?

The BEACH Act authorizes EPA to make a grant to a local government for implementation of a monitoring and notification program only if, after the 1-year period beginning on the date of publication of performance criteria, EPA determines that the State is not implementing a program that meets the requirements of the statute. EPA expects to publish performance criteria in October 2001, and therefore expects October 2002 as the earliest date for local governments to be eligible for beach grants.

Are Tribal Governments Eligible for Funding?

Section 518(e) of the CWA authorizes EPA to treat eligible Indian tribes in the same manner as States for the purpose of receiving CWA section 406 grant funding. EPA is developing a rule that would establish procedures for Indian tribes to apply for eligibility for funding under the BEACH Act. The rule would contain the statutory criteria for Indian tribes to be treated in the same manner as a State and indicate how a tribe is to apply for such treatment. The rule would facilitate the award of funding to Indian tribes that qualify under this new CWA program. EPA plans to publish the rule as an interim final regulation in the **Federal Register** by the end of this

calendar year. Indian tribes could begin to apply to the appropriate Regional Administrator for treatment in the same manner as a State under the rule as early as 30 days after the publication date. EPA expects to accept grant applications for tribes in Fiscal Year 2002.

How Much Funding Is Available?

For Fiscal Year 2001, EPA expects to award approximately \$2 million in Development Grants to eligible States and Territories.

How Will the Funding Be Allocated?

For the first year only, EPA expects to award Development Grants in equal amounts to all eligible States and Territories who apply for funding. EPA selected the equal amount allocation because this is the simplest and quickest way to award grants while being fair to all applicants and avoiding complex allocation formulas. The size of the award will depend on the number of applicants. If all 35 eligible States and Territories apply, the awards are expected to range between \$50,000 to \$60,000. However, if fewer than 35 States and Territories apply, then the grant awards will be divided among the number of applicants, thus awarding larger grants.

What is the Expected Duration of the Funding and Project Periods?

The expected funding and project period for Development Grants awarded in FY 2001 is one year.

Are Matching Funds Required?

Recipients are not required to provide matching funds for Development Grants awarded under authority of the BEACH Act at this time.

III. Grant Condition

Section 406(c) of the BEACH Act requires that as a condition of receipt of a Development Grant, recipients identify:

(1) lists of coastal recreation waters in the State, including coastal recreation waters adjacent to beaches or similar points of access that are used by the public;

(2) in the case of a State program for monitoring and notification, the process by which the State may delegate to local governments responsibility for implementing the monitoring and notification program;

(3) the frequency and location of monitoring and assessment of coastal recreation waters based on: (A) The periods of recreational use of the waters; (B) the nature and extent of use during certain periods; (C) the proximity of the waters to known point sources and

nonpoint sources of pollution; and (D) any effect of storm events on the waters;

(4) (A) the methods to be used for detecting levels of pathogens and pathogen indicators that are harmful to human health; and (B) the assessment procedures for identifying short-term increases in pathogens and pathogen indicators that are harmful to human health in coastal recreation waters (including increases in relation to storm events);

(5) measures for prompt communication of the occurrence, nature, location, pollutants involved, and extent of any exceeding of, or likelihood of exceeding, applicable water quality standards for pathogens and pathogen indicators to: (A) the Administrator, in such form as the Administrator determines to be appropriate; and (B) a designated official of the local government having jurisdiction over land adjoining the coastal recreation waters for which the failure to meet applicable standards is identified;

(6) measures for the posting of signs at beaches or similar points of access, or functionally equivalent communication measures that are sufficient to give notice to the public that the coastal recreation waters are not meeting or are not expected to meet applicable water quality standards for pathogens and pathogen indicators; and

(7) measures that inform the public of the potential risks associated with water contact activities in the coastal recreation waters that do not meet applicable water quality standards.

IV. Additional Eligible Activities

Recipients may use funds for activities in support of developing a beach monitoring and notification program, including:

(1) activities to comply with the grant conditions specified in section III above;

(2) quality assurance and quality control (QA/QC) procedures consistent with the requirements under 40 CFR 31.45; to develop and implement QA/QC practices for environmentally related measurements or data generation sufficient to produce data of quality adequate to meet project objectives and to minimize loss of data due to out-of-control conditions or malfunctions;

(3) data quality objectives (DQOs), quality assurance project plan (QAPP) and standard operating procedures (SOPs) that clarify study objectives, define the appropriate type of data, and specify tolerable levels of potential decision errors that will be used as the basis for establishing the quality and quantity of data needed to support decisions.

V. Selection Process

What Criteria Will Be Used To Evaluate Applications and Award Development Grants?

Development Grants will be awarded through a non-competitive process by the EPA Regional offices. EPA expects to award grants to all eligible State and Territory applicants that meet requirements of the BEACH Act as described in this notice.

Who Has the Authority To Award Development Grants?

The Administrator has delegated the authority to award Development Grants to the Regional Administrators.

VI. Application Procedure

What Is the Catalog of Federal Domestic Assistance (CFDA) Number for the BEACH Program Development Grant?

The number assigned to the Development Grants is 66.472, Program Code CU.

May the Development Grants Be Included as Part of the Performance Partnership Grants Program?

For Fiscal Year 2001, Development Grants cannot be included in a Performance Partnership Grant.

What Are the Components of the Application Package?

The application package should contain completed EPA SF-424 Application for Federal Assistance and be submitted to the appropriate EPA Regional Office by July 30, 2001. Contact the appropriate EPA Regional Office for a complete application package. See section VII for a list of EPA Regional Grant Coordinators or visit the Beach Watch Website at www.epa.gov/ost/beaches on the Internet.

What Regulations Will Govern the Award and Administration of Development Grants?

Development Grants will be awarded and administered according to the regulations at 40 CFR part 31 ("Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments").

Will Quality Assurance and Quality Control (QA/QC) and Other Procedures Be Required for Application?

No. A QA/QC plan is not required for the application, however under 40 CFR 31.45 a QA/QC plan is required for any environmentally related measurements or data generation (e.g. monitoring) performed under the grant. (See section IV of this document).

Will There Be Reporting Requirements?

Recipients must submit annual performance reports on the progress of the program development, as required in sections 31.40 and 31.41.

BILLING CODE 6560-50-U

ENVIRONMENTAL PROTECTION AGENCY

[OPP-34225E; FRL-6785-2]

Diazinon; Receipt of Requests for Amendments and Cancellations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The companies that manufacture diazinon [O,O-diethyl O-(2-isopropyl-6-methyl-4-pyrimidinyl) phosphorothioate] for formulation of pesticide products containing diazinon have asked EPA to cancel their manufacturing-use product registrations. In addition, these companies have asked EPA to cancel or amend their registrations for end-use products containing diazinon to delete all indoor and certain agricultural uses. Pursuant to section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), EPA is announcing the Agency's receipt of these requests. These requests for voluntary cancellation were submitted to EPA in February and March 2001. EPA intends to grant the requested cancellations and amendments to delete uses. EPA also plans to issue a cancellation order for the deleted uses and the canceled registrations at the close of the comment period for this announcement. Upon the issuance of the cancellation order, any distribution, sale, or use of diazinon products listed in this notice will only be permitted if such distribution, sale, or use is consistent with the terms of that order.

DATES: Comments on the requested amendments to delete uses and the requested registration cancellations must be submitted to the address provided below and identified by docket control number OPP-34225E. Comments must be received on or before June 29, 2001.

ADDRESSES: Comments may be submitted by mail, electronically, or in person. Please follow the detailed instructions for each method as provided in Unit I. of the

SUPPLEMENTARY INFORMATION. To ensure proper receipt by EPA, it is imperative that you identify docket control number OPP-34225E in the subject line on the first page of your response.

FOR FURTHER INFORMATION CONTACT: Ben Chambliss, Special Review and Reregistration Division (7508C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: (703) 308-8174; fax number: (703) 308-7042; e-mail address: chambliss.ben@epa.gov.

SUPPLEMENTARY INFORMATION: This announcement consists of three parts. The first part contains general information. The second part addresses the registrants' requests for registration cancellations and amendments to delete uses. The third part proposes existing stocks provisions that will be set forth in the cancellation order that the Agency intends to issue at the close of the comment period for this announcement.

I. General Information*A. Does this Action Apply to Me?*

This action is directed to the public in general. You may be potentially affected by this action if you manufacture, sell, distribute, or use diazinon products. The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, does not apply because this action is not a rule, for purposes of 5 U.S.C. 804(3). Since other entities may also be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Additional Information, Including Copies of this Document and Other Related Documents?

1. *Electronically.* You may obtain electronic copies of this document, and certain other related documents that might be available electronically, from the EPA Internet Home Page at <http://www.epa.gov/>. To access this document, on the Home Page select "Laws and Regulations," "Regulations and Proposed Rules" and then look up the entry for this document under the "Federal Register—Environmental Documents." You can also go directly to the **Federal Register** listings at <http://www.epa.gov/fedrgstr/>. To access information about the risk assessment
