Low Enriched Uranium from France, Germany, the Netherlands, and the United Kingdom: Extension of Time Limit for Preliminary Results of Countervailing Duty Administrative Reviews

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: October 17, 2005.

FOR FURTHER INFORMATION CONTACT: Kristen Johnson or Darla Brown, AD/CVD Operations, Office 3, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-4793 or (202) 482-2849, respectively.

SUPPLEMENTARY INFORMATION:

Background Information

On March 23, 2005, the U.S. Department of Commerce ("the Department") published a notice of initiation of the administrative reviews of the countervailing duty orders on low enriched uranium from France, Germany, the Netherlands, and the United Kingdom covering the period of review January 1, 2004, through December 31, 2004. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews and Requests for Revocation in Part*, 70 FR 14643 (March 23, 2005). The preliminary results are currently due no later than October 31, 2005.

Extension of Time Limit for Preliminary Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"), requires the Department to make a preliminary determination within 245 days after the last day of the anniversary month of an order or finding for which a review is requested. Section 751(a)(3)(A) of the Act further states that if it is not practicable to complete the review within the time period specified, the administering authority may extend the 245-day period to issue its preliminary results by up to 120 days.

We determine that completion of the preliminary results of these reviews within the 245-day period is not practicable for the following reasons. These reviews are extraordinarily complicated because of the complex nature of the more than adequate remuneration program in the review covering France and the request for revocation in the reviews covering Germany, the Netherlands, and the United Kingdom. Given the complexity of these issues, which need to be thoroughly analyzed by the Department, and in accordance with section 751(a)(3)(A) of the Act, we are extending the time period for issuing the preliminary results of reviews by 120 days. Therefore, the preliminary results are now due no later than February 28, 2006. The final results continue to be due 120 days after publication of the preliminary results.

This notice is issued and published in accordance with sections 751(a)(3)(A) and 777(i)(1) of the Act.

Dated: October 11, 2005.

Gary Taverman,

Acting Deputy Assistant Secretary for Import Administration.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 092705B]

Endangered and Threatened Species; Take of Anadromous Fish; Correction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; availability of fishery plan and request for comment; Correction

SUMMARY: This document corrects an earlier version of this action that was published on October 3, 2005, in which the ACTION statement was omitted. The Oregon Department of Fish and Wildlife (ODFW) has submitted a Fishery Management and Evaluation Plan (FMEP) and the Washington Department of Fish and Wildlife (WDFW) has submitted an amendment to an FMEP pursuant to the protective regulations promulgated for Lower Columbia River (LCR) coho salmon under the Endangered Species Act. The FMEPs specify the future management of inland recreational fisheries potentially affecting LCR coho salmon. This document serves to notify the public of

the availability of the FMEPs for review and comment before final approval or disapproval is made by NMFS.

DATES: Comments on the FMEPs must be received at the appropriate address or fax number (see **ADDRESSES**) no later than 5 p.m. Pacific daylight time on November 2, 2005.

ADDRESSES: Written comments on the application should be addressed to the Salmon Recovery Division, Hatcheries and Inland Fisheries Branch, 1201 NE Lloyd Blvd. Suite 1100, Portland, OR 97232 or faxed to 503-872-2737. Comments may be submitted by e-mail. The mailbox address for providing e-mail comments is LCRCohoFMEPs.nwr@noaa.gov. Include in the subject line of the e-mail comment the following identifier: *Comments on LCR Coho FMEPs*.

FOR FURTHER INFORMATION CONTACT: Richard Turner, Portland, Oregon, at phone number: (503) 736-4737, or e-mail: rich.turner@noaa.gov.

SUPPLEMENTARY INFORMATION:

Species Covered in This Notice

This notice is relevant to the Lower Columbia River coho salmon (*Oncorhynchus kisutch*), Lower Columbia River Chinook salmon (*O. tshawytscha*), Lower Columbia River steelhead (*O. mykiss*), and Columbia River chum salmon (*O. keta*) evolutionarily significant unit (ESU).

ODFW has submitted to NMFS an FMEP: Lower Columbia River Coho in Oregon Freshwater Fisheries of the Lower Columbia River Tributaries (between the Pacific Ocean and Hood River). WDFW has submitted an amendment to their Lower Columbia River FMEP for inland recreational fisheries potentially affecting listed adult and juvenile LCR coho salmon. These FMEPs include fisheries occurring in all tributaries to the Lower Columbia River from the Pacific Ocean to the Hood River in Oregon and the Big White Salmon River in Washington. The objective of the fisheries described in these FMEPs is to harvest known, hatchery-origin coho salmon, and other fish species in a manner that does not appreciably reduce the likelihood of survival and recovery of listed LCR salmon and steelhead ESUs. All fisheries included in these FMEPs will be managed such that only hatchery-origin coho salmon that are adipose fin-clipped may be retained. Impact levels on listed LCR coho salmon are specified in ODFW's FMEP and the amendment to WDFW's FMEP. Population viability analysis and risk assessments in the FMEPs indicate the extinction risk for listed coho salmon would not increase
