

in violation of a foreign law or regulation, or in contravention of a binding conservation measure of an RFMO to which the United States is a contracting party. Under SIMP, information on the harvest event must be submitted in ACE as part of the entry filing for designated fish products to allow NMFS to determine that the fish or fish products were lawfully acquired and are therefore admissible into U.S. commerce. In 2019, NMFS included shrimp and abalone entries in SIMP, and received initial OMB approval for the additional reporting burden for shrimp and abalone entries under a separate Control Number (0648–0776).

In the 2020 collection renewal of 0648–0732, OMB granted the NMFS request to merge all the trade monitoring programs under one collection, which incorporated the reporting burdens associated with collections 0648–0739 and 0648–0776 within the scope of 0648–0732. Generally, these trade monitoring programs are similar and require anyone who intends to import, export, and/or re-export regulated species to obtain an International Fisheries Trade Permit (IFTP) from NMFS; obtain documentation on the flag-nation authorization for the harvest from the foreign exporter; and submit this information to NMFS. Depending on the commodity, specific information may also be required, such as the flag-state of the harvesting vessel, the ocean area of catch, the fishing gear used, the harvesting vessel name, and details and authorizations related to harvest, landing, transshipment, and export.

Affected Public: Business or other for-profit organizations; Federal government.

Frequency: Annual trade permits; electronic reports upon import/export; provision of supply chain documents when selected for audit.

Respondent's Obligation: Required to Obtain or Retain Benefits.

Legal Authority: 16 U.S.C. 1385, 16 U.S.C. 1826(a), 16 U.S.C. 971(a), 19 U.S.C. 1411.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or

by using the search function and entering either the title of the collection or the OMB Control Number 0648–0732.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.

Mid-Atlantic Fishery Management Council (MAFMC); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; public meeting.

SUMMARY: The Ecosystem and Ocean Planning (EOP) Committee and Advisory Panel (AP) of the Mid-Atlantic Fishery Management Council (Council) will hold a joint meeting. See **SUPPLEMENTARY INFORMATION** for agenda details.

DATES: The meeting will be held on Thursday, February 23, 2023, from 1 p.m. through 3 p.m.

ADDRESSES: The meeting will take place over webinar with a telephone-only connection option. Details on how to connect to the webinar by computer and by telephone will be available at: www.mafmc.org.

Council address: Mid-Atlantic Fishery Management Council, 800 N State Street, Suite 201, Dover, DE 19901; telephone: (302) 674–2331; website: www.mafmc.org.

FOR FURTHER INFORMATION CONTACT:

Christopher M. Moore, Ph.D., Executive Director, Mid-Atlantic Fishery Management Council, telephone: (302) 526–5255.

SUPPLEMENTARY INFORMATION: The purpose of this meeting is for the EOP Committee and AP to provide feedback on the results and future application of a research project the Council is collaborating on with a research team from Rutgers University. The project developed forecast models to predict short-term (1–10 years) climate-induced distribution changes for four economically important Mid and South Atlantic managed species (Summer Flounder, Spiny Dogfish, *Illex* Squid, and Gray Triggerfish). The forecast model was initially developed, fully tested, and evaluated for summer

flounder and has been fitted and applied to the other three focal species. The EOP Committee and AP will provide feedback on the model results, potential model utility, and possible future science and management applications. EOP Committee and AP feedback, as well as input from the Council's Scientific and Statistical Committee (SSC), will be presented to the Council for their consideration.

A detailed agenda and background documents will be made available on the Council's website (www.mafmc.org) prior to the meeting.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aid should be directed to Shelley Spedden, (302) 526–5251, at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: February 1, 2023.

Rey Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
