other than Vermont DHP, Tribal representatives, and Commission staff will be excused for that portion of the meeting.

g. A summary of the meeting will be placed in the public record of this proceeding. As appropriate, the meeting summary will include both a public, redacted version that excludes any information about the specific location of any archaeological site or Native American cultural resource and an unredacted privileged version. Parties planning to attend the meeting should notify Amanda Gill at (202) 502–6773 or amanda.gill@ferc.gov by Friday, July 19, 2024 to RSVP and to receive specific instructions for logging in to the meeting.

Dated: July 8, 2024.

Debbie-Anne A. Reese,

Acting Secretary.

[FR Doc. 2024-15362 Filed 7-11-24; 8:45 am]

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. ER24-2425-000]

Buckeye Plains Solar Project, LLC; Supplemental Notice That Initial Market-Based Rate Filing Includes Request for Blanket Section 204 Authorization

This is a supplemental notice in the above-referenced proceeding of Buckeye Plains Solar Project, LLC's application for market-based rate authority, with an accompanying rate tariff, noting that such application includes a request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability.

Any person desiring to intervene or to protest should file with the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant.

Notice is hereby given that the deadline for filing protests with regard to the applicant's request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability, is July 25, 2024.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at http://

www.ferc.gov. To facilitate electronic service, persons with internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically may mail similar pleadings to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426. Hand delivered submissions in docketed proceedings should be delivered to Health and Human Services, 12225 Wilkins Avenue, Rockville, Maryland 20852.

In addition to publishing the full text of this document in the Federal Register, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (http:// www.ferc.gov). From the Commission's Home Page on the internet, this information is available on eLibrary. The full text of this document is available on eLibrary in PDF and Microsoft Word format for viewing, printing, and/or downloading. To access this document in eLibrary, type the docket number excluding the last three digits of this document in the docket number field.

User assistance is available for eLibrary and the Commission's website during normal business hours from FERC Online Support at 202–502–6652 (toll free at 1–866–208–3676) or email at ferconlinesupport@ferc.gov, or the Public Reference Room at (202) 502–8371, TTY (202) 502–8659. Email the Public Reference Room at public.referenceroom@ferc.gov.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502–6595 or *OPP@ ferc.gov*.

Dated: July 5, 2024.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 4113-067]

Oswego Hydro Partners, LP; Notice of Scoping Meetings and Environmental Site Review and Soliciting Scoping Comments

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection.

a. *Type of Application:* New Major License.

- b. Project No.: 4113-067.
- c. Date Filed: February 27, 2024.
- d. Applicant: Oswego Hydro Partners, LP.
- e. *Name of Project:* Phoenix Hydroelectric Project.
- f. Location: On the Oswego, Oneida, and Seneca Rivers in Onondaga and Oswego counties, New York.
- g. Filed Pursuant to: Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. Applicant Contact: Jody Smet, Vice President Regulatory Affairs, Eagle Creek Renewable Energy, LLC, 7315 Wisconsin Avenue, Suite 1100W, Bethesda, MD 20814; telephone at (240) 482–2700; email at Jody.smet@ eaglecreekre.com.

i. FERC Contact: Joshua Dub, Project Coordinator, Great Lakes Branch, Division of Hydropower Licensing; telephone at (202) 502–8138; email at Joshua.Dub@ferc.gov.

j. Deadline for filing scoping comments: September 9, 2024.

The Commission strongly encourages electronic filing. Please file scoping comments using the Commission's eFiling system at https://ferconline. ferc.gov/FERCOnline.aspx. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at https:// ferconline.ferc.gov/ *QuickComment.aspx.* You must include vour name and contact information at the end of your comments. For assistance, please contact FERC Online Support at FERCOnlineSupport@ ferc.gov, (866) 208-3676 (toll free), or (202) 502-8659 (TTY). In lieu of electronic filing, you may submit a paper copy. Submissions sent via the U.S. Postal Service must be addressed to: Debbie-Anne A. Reese, Acting Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Debbie-Anne A. Reese, Acting Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, MD 20852. All filings must clearly identify the project name and docket number on the first page: Phoenix Hydroelectric Project (P-4113-067).

The Commission's Rules of Practice and Procedure require all interveners filing documents with the Commission to serve a copy of that document on each person on the official service list for the project. Further, if an intervener files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

k. The application is not ready for environmental analysis at this time.

l. Project Description: The Phoenix Project consist of a concrete dam, known as the Phoenix Dam, that includes: (1) an approximately 90-footlong, 55-foot-wide powerhouse that is integral with the dam and includes: (a) north and south intake openings with a trashrack with 1-inch clear bar spacing; and (b) two 1.59–MW vertical Kaplan

turbine-generator units, for a total installed capacity of 3.18 MW; (2) a section with a 10-foot-long debris sluice gate and a 7-foot-long sluice gate that provides downstream fish passage; (3) a 163-foot-long, 14-foot-high ogee spillway with 1-foot-high flashboards that have a crest elevation of 362.42 feet North American Vertical Datum of 1988 (NAVD 88); (4) an approximately 206foot-long section with four Tainter gates; (5) a 390-foot-long, 14-foot-high ogee spillway with 1-foot-high flashboards that have a crest elevation of 362.42 feet NAVD 88; and (6) a 107-foot-long section with two Tainter gates.

The 107-foot-long Tainter gate section of Phoenix Dam abuts Lock Island, which is a non-project feature that spans approximately 150 feet of the Oswego River. In addition, a non-project lock, known as the Phoenix Lock, spans approximately 45 feet of the Oswego River between Lock Island and the east shoreline of the Oswego River. Together, the Phoenix Dam, Lock Island, and Phoenix Lock create an impoundment that has a surface area of approximately 1,400 acres at 362.42 feet NAVD 88.

From the impoundment, water flows through the trashrack to a forebay, and then through the powerhouse. Water is discharged from the turbines to an approximately 120-foot-long tailrace that discharges to the Oswego River.

The project includes a trap and transport facility for the upstream passage of American eel that consists of an eel ramp and a plastic eel collection box located approximately 160 feet downstream of the project dam on the east shoreline of the Oswego River. The project also includes a downstream fishway that consists of the 7-foot-long sluice gate and a 4.8-foot-deep concrete plunge pool. Additionally, the project includes an aluminum walkway that provides access to the 206-foot-long Tainter gate section of the dam.

The project generators are connected to the regional electric grid by: a 4.16/34.5-kilovolt (kV) step-up transformer and a 230-foot-long, 34.5-kV underground transmission line.

The minimum and maximum hydraulic capacities of the powerhouse are 500 and 4,580 cubic feet per second (cfs), respectively. The average annual energy production of the Phoenix Project was 10,518 megawatt-hours from 2016 through 2023.

The current license requires Oswego Hydro to operate the project in a run-of-river mode and maintain a maximum impoundment surface elevation of 362.42 feet NAVD88. Oswego Hydro currently maintains the surface elevation of the impoundment between 361.92 feet and 362.42 feet NAVD 88.
