

whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of This Information

(1) *Type of Information Collection:* Extension of a currently approved collection.

(2) *Title of the Form/Collection:* COPS School-Based Partnership Implementation Report.

(3) *Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection:* Form: COPS PPSE/04. Office of Community Oriented Policing Services, U.S. Department of Justice.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Approximately 500 grant project coordinators, school administrators, and school resource officers, who have participated in the implementation of a COPS School-Based Partnership '98 grant project, will be asked to respond. The COPS School-Based Partnership Report will allow the COPS office to collect information from COPS School-Based Partnership '98 grantees on the implementation of collaborative problem-solving techniques used to address crime and disorder in and around schools. The COPS office will use the information collected to examine the processes undertaken by SBP grantees in implementing collaborative problem-solving techniques. A report of these findings will identify lessons learned and will provide recommendations to policing agencies and schools seeking to implement similar problem-solving partnerships.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* Surveys will be administered by mail to approximately 500 project coordinators, school administrators, and school resource officers, who have participated in the implementation of a COPS School-Based Partnership '98 grant project. Survey completion will

take approximately 0.25 hours per respondent (there is no recordkeeping burden for this collection).

(6) *An estimate of the public burden (in hours) associated with the collection:* The estimated burden hours are 125.

If additional information is required contact: Mrs. Brenda E. Dyer, Deputy Clearance Officer, United States Department of Justice, Information Management and Security Staff, Justice Management Division, Suite 1220, National Place, 1331 Pennsylvania Avenue, NW., Washington, DC 20530.

Dated: February 28, 2001.

Brenda E. Dyer,

Department Deputy Clearance Officer, United States Department of Justice.

BILLING CODE 1650-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-317 and 50-318]

Calvert Cliffs Nuclear Power Plant, Inc.; Calvert Cliffs Nuclear Power Plant, Unit Nos. 1 and 2; Exemption

1.0 Background

Calvert Cliffs Nuclear Power Plant, Inc. (CCNPPI, the licensee) is the holder of Renewed Facility Operating License Nos. DPR-53 and DPR-69 which authorize operation of the Calvert Cliffs Nuclear Power Plant, Unit Nos. 1 and 2 (CCNPP). The licenses provide, among other things, that the facility is subject to all rules, regulations, and orders of the U.S. Nuclear Regulatory Commission (NRC, the Commission) now or hereafter in effect.

The facility consists of two pressurized-water reactors located in Calvert County, Maryland.

2.0 Purpose

Title 10 of the Code of Federal Regulations (10 CFR) Part 50, Appendix G, requires that pressure-temperature (P-T) limits be established for reactor pressure vessels (RPVs) for normal operating and hydrostatic or leak rate testing conditions. Specifically, 10 CFR part 50, Appendix G states, "The appropriate requirements on both the pressure-temperature limits and the minimum permissible temperature must be met for all conditions." Appendix G of 10 CFR Part 50 also states that the "P-T limits identified as "ASME [American Society of Mechanical Engineers] Appendix G limits" in Table 1 require that the limits must be at least as conservative as limits obtained by
