

ENVIRONMENTAL PROTECTION AGENCY**[EPA-HQ-OAR-2003-0073; FRL9343-01-OLEM]****Proposed Information Collection Request; Comment Request: Distribution of Offsite Consequence Analysis Information Under the Clean Air Act (CAA), as Amended, EPA ICR 1981.08, OMB Control Number 2050-0172****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice.

SUMMARY: The Environmental Protection Agency is planning to submit an information collection request (ICR), Distribution of Offsite Consequence Analysis Information under section 112(r)(7)(H) of the Clean Air Act (CAA), as amended (EPA No. 1981.08, OMB Control Number 2050-0172), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described in

SUPPLEMENTARY INFORMATION. This is a proposed extension of the ICR, which is currently approved through November 30, 2022. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Comments must be submitted on or before May 2, 2022.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA-HQ-OAR-2006-0073, to: EPA online using www.regulations.gov (our preferred method), or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460, and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at <http://www.regulations.gov>. Out of an abundance of caution for members of the public and our staff, the EPA Docket Center and Reading Room is closed to the public, with limited exceptions, to reduce the risk of transmitting COVID-19. Our Docket Center staff will continue to provide remote customer service via email, phone, and webform. For further information about the EPA's public docket, Docket Center services and the current status, please visit us online at <https://www.epa.gov/dockets>. The telephone number for the Docket Center is 202-566-1744.

Pursuant to section 3506(c)(2)(A) of the PRA, EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: This ICR is the renewal of the ICR developed for the final rule, *Accidental Release Prevention Requirements; Risk Management Programs Under the Clean Air Act Section 112(r)(7); Distribution of Off-Site Consequence Analysis Information*. CAA section 112(r)(7) required EPA to promulgate reasonable regulations and appropriate guidance to provide for the prevention and detection of accidental releases and for responses to such releases. The regulations include

requirements for submittal of a risk management plan (RMP) to EPA. The RMP includes information on offsite consequence analyses (OCA) as well as other elements of the risk management program.

On August 5, 1999, the President signed the Chemical Safety Information, Site Security, and Fuels Regulatory Relief Act (CSISSFRA). The Act required the President to promulgate regulations on the distribution of OCA information (CAA section 112(r)(7)(H)(ii)). The President delegated to EPA and the Department of Justice (DOJ) the responsibility to promulgate regulations to govern the dissemination of OCA information to the public. The final rule was published on August 4, 2000 (65 FR 48108). The regulations imposed minimal information and recordkeeping requirements.

In accordance with the final rule, the Federal Government established 55 reading rooms at Federal facilities geographically distributed across the United States and its territories. At these reading rooms, members of the public are able to read, but not mechanically copy or remove, paper copies of OCA information for up to 10 stationary sources per calendar month. At these reading rooms, the members of the public may also have access to OCA information that the Local Emergency Planning Committee (LEPC) in whose jurisdiction the person lives or works is authorized to provide.

The final rule also authorizes and encourages state and local government officials to have access to OCA information for their official use, and to provide members of the public with read-only access to OCA sections of RMPs for sources located within the jurisdiction of the LEPC where the person lives or works and for any other stationary sources with vulnerability zones extending into the LEPC's jurisdiction.

EPA also established a Vulnerable Zone Indicator System (VZIS) that informs any person located in any state whether an address specified by that person might be within the vulnerable zone of one or more stationary sources, according to the data reported in RMPs. The VZIS is available on the internet. Members of the public who do not have access to the internet are able to obtain the same information by regular mail request to the EPA.

The burden estimates, numbers and types of respondents, wage rates and unit and total costs for this ICR renewal will be revised and updated, if needed, during the 60-day comment period while the ICR Supporting Statement is undergoing review at OMB.

Form Numbers: None.

Respondents/affected entities: State and local agencies and the public.

Respondent's obligation to respond: Required to obtain or retain a benefit (40 CFR 1400).

Estimated number of respondents: 315 (total).

Frequency of response: As necessary.

Total estimated burden: 367 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$16,252 (per year), includes \$23 annualized capital or operation & maintenance costs.

Changes in the Estimates: Any change in burden or cost resulting from the 60-day OMB review period will be described and explained in this section when the updated ICR Supporting Statement is completed.

Donna Salyer,

Director, Office of Emergency Management.

Agency Information Collection Activities; Proposed Reinstatement of an Existing Collection and Request for Comment; Assessment of Environmental Performance Standards and Ecolabels for Federal Procurement

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA), this document announces that EPA is planning to submit an Information Collection Request (ICR) to the Office of Management and Budget (OMB) entitled: "Assessment of Environmental Performance Standards and Ecolabels for Federal Procurement" and identified by EPA ICR No. 2516.04 and OMB Control No. 2070-0199. This is a request to reinstate a previously approved ICR as revised in order to allow the information collection to implement the Framework for the Assessment of Environmental Performance Standards and Ecolabels for Federal Purchasing (Framework). Before submitting the ICR to OMB for review and approval under the PRA, EPA is soliciting comments on specific aspects of the proposed information collection that is summarized in this document. The ICR and accompanying material are available in the docket for public review and comment.

DATES: Comments on the proposed ICR must be received on or before May 2, 2022.

ADDRESSES: Submit your comments on the proposed ICR identified by docket identification (ID) number EPA-HQ-OPPT-2014-0838, though the Federal eRulemaking Portal at <http://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Additional instructions on commenting or visiting the docket, along with more information about dockets generally, is available at <http://www.epa.gov/dockets>.

Due to the public health concerns related to COVID-19, the EPA Docket Center (EPA/DC) and Reading Room is opened to visitors by appointment only. For the latest status information on EPA/DC and docket access, visit <https://www.epa.gov/dockets>.

SUPPLEMENTARY INFORMATION:

I. What information is EPA particularly interested in?

Pursuant to PRA section 3506(c)(2)(A) (44 U.S.C. 3506(c)(2)(A)), EPA specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.
2. Evaluate the accuracy of the Agency's estimates of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
3. Enhance the quality, utility, and clarity of the information to be collected.
4. Minimize the burden of the collection of information on those who

are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses/organizations (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses/organizations affected by this collection.

II. What information collection activity or ICR does this action apply to?

Title: Assessment of Environmental Performance Standards and Ecolabels for Federal Procurement.

ICR numbers: EPA ICR No. 2516.04; OMB Control No. 2070-0199.

ICR status: This ICR is a reinstatement. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the Code of Federal Regulations (CFR), after appearing in the **Federal Register** when approved, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This ICR covers the information that will be requested to be submitted to the Agency to evaluate private sector standards and ecolabels under the updated Framework for the Assessment of Environmental Performance Standards and Ecolabels for Federal Purchasing. EPA's goal in developing this Framework is to create a transparent, fair, and consistent approach to evaluate product environmental performance standards and ecolabels for inclusion in EPA's Recommendations of Specifications, Standards, and Ecolabels for Federal Purchasing ("Recommendations"). The Recommendations help federal purchasers identify and procure environmentally preferable products and services which in turn, help to meet their sustainability goals and requirements.

EPA is engaging in this collection pursuant to the authority in the Pollution Prevention Act (42 U.S.C.A. section 13103(b)(11) which requires EPA to "Identify opportunities to use Federal procurement to encourage source reduction" and section 12(d) of
