

illegal robocalls from reaching consumers and to help track these calls back to the source. Along with further extension of the Commission's caller ID authentication requirements and Robocall Mitigation Database filing requirements, the Commission adopted several robocall mitigation requirements, including a requirement for gateway providers to respond to traceback within 24 hours, mandatory blocking requirements, a "know your upstream provider" requirement, and a general mitigation requirement.

Gateway Provider Report and Order, FCC 22-37, Paras. 65-71, 47 CFR 64.1200(n)(1)

A voice service provider must: . . . Upon receipt of a traceback request from the Commission, civil law enforcement, criminal law enforcement, or the industry traceback consortium:

(i) If the provider is an originating, terminating, or non-gateway intermediate provider for all calls specified in the traceback request, the provider must respond fully and in a timely manner;

(ii) If the provider receiving a traceback request is the gateway provider for any calls specified in the traceback request, the provider must fully respond to the traceback request within 24 hours of receipt of the request. The 24-hour clock does not start outside of business hours, and requests received during that time are deemed received at 8:00 a.m. on the next business day. If the 24-hour response period would end on a non-business day, either a weekend or a federal legal holiday, the 24-hour clock does not run for the weekend or holiday in question, and restarts at 12:01 a.m. on the next business day following when the request would otherwise be due. For example, a request received at 3:00 p.m. on a Friday will be due at 3:00 p.m. on the following Monday, assuming that Monday is not a federal legal holiday. For purposes of this rule, "business day" is defined as Monday through Friday, excluding federal legal holidays, and "business hours" is defined as 8:00 a.m. to 5:30 p.m. on a business day. For purposes of this rule, all times are local time for the office that is required to respond to the request.

The first portion of the information collection for which OMB approval is sought comes from the requirement adopted in the Gateway Provider Report and Order that all voice service providers respond to traceback "fully and in a timely manner" and gateway providers must respond within 24 hours. All voice service providers, including gateway providers are required to respond to traceback requests from the Commission, civil and criminal law enforcement, and the Industry Traceback Consortium. Traceback is a key enforcement tool in the fight against illegal calls, allowing the Commission or law enforcement to identify the caller and bring enforcement actions or otherwise stop

future calls before they reach consumers. Any unnecessary delay in the process can increase the risk that this essential information may become impossible to obtain. While traceback is not a new process, some providers have historically been reluctant to respond, or have simply ignored requests. This requirement ensures that all providers are on notice that a response is required, and allows real consequences for refusal.

BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-1285; FR ID 102882]

Information Collection Being Submitted for Review and Approval to Office of Management and Budget

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal Agencies to take this opportunity to comment on the following information collection. Pursuant to the Small Business Paperwork Relief Act of 2002, the FCC seeks specific comment on how it might "further reduce the information collection burden for small business concerns with fewer than 25 employees." The Commission may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written comments and recommendations for the proposed information collection should be submitted on or before October 6, 2022.

ADDRESSES: Comments should be sent to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function. Your comment must be

submitted into www.reginfo.gov per the above instructions for it to be considered. In addition to submitting in www.reginfo.gov also send a copy of your comment on the proposed information collection to Nicole Ongele, FCC, via email to PRA@fcc.gov and to Nicole.Ongele@fcc.gov. Include in the comments the OMB control number as shown in the **SUPPLEMENTARY INFORMATION** below.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection, contact Nicole Ongele at (202) 418-2991. To view a copy of this information collection request (ICR) submitted to OMB: (1) go to the web page <http://www.reginfo.gov/public/do/PRAMain>, (2) look for the section of the web page called "Currently Under Review," (3) click on the downward-pointing arrow in the "Select Agency" box below the "Currently Under Review" heading, (4) select "Federal Communications Commission" from the list of agencies presented in the "Select Agency" box, (5) click the "Submit" button to the right of the "Select Agency" box, (6) when the list of FCC ICRs currently under review appears, look for the Title of this ICR and then click on the ICR Reference Number. A copy of the FCC submission to OMB will be displayed.

SUPPLEMENTARY INFORMATION: As part of its continuing effort to reduce paperwork burdens, as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the FCC invited the general public and other Federal Agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimates; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology. Pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107-198, see 44 U.S.C. 3506(c)(4), the FCC seeks specific comment on how it might "further reduce the information collection burden for small business concerns with fewer than 25 employees."

OMB Control Number: 3060-1285.

Title: Compliance with the Non-IP Call Authentication Solution Rules; Robocall Mitigation Database (RMD).
Form Number: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for profit entities.

Number of Respondents and Responses: 8,970 respondents; 8,970 responses.

Estimated Time per Response: 0.5 hours (30 minutes)–3 hours.

Frequency of Response:

Recordkeeping requirement and on occasion reporting requirement.

Obligation to Respond: Mandatory and required to obtain or retain benefits. Statutory authority for these collections are contained in 47 U.S.C. 227b, 251(e), and 227(e) of the Communications Act of 1934.

Total Annual Burden: 20,503 hours.

Total Annual Cost: No Cost.

Privacy Impact Assessment: No impact(s).

Nature and Extent of Confidentiality:

The Commission will consider the potential confidentiality of any information submitted, particularly where public release of such information could raise security concerns (e.g., granular location information). Respondents may request materials or information submitted to the Commission or to the Administrator be withheld from public inspection under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Pallone-Thune Telephone Robocall Abuse Criminal Enforcement and Deterrence (TRACED) Act directs the Commission to require, no later than 18 months from enactment, all voice service providers to implement STIR/SHAKEN caller ID authentication technology in the internet protocol (IP) portions of their networks and implement an effective caller ID authentication framework in the non-IP portions of their networks. Among other provisions, the TRACED Act also directs the Commission to create extension mechanisms for voice service providers. On September 29, 2020, the Commission adopted its *Call Authentication Trust Anchor Second Report and Order*. See *Call Authentication Trust Anchor*, WC Docket No. 17–97, Second Report and Order, 36 FCC Rcd 1859 (adopted Sept. 29, 2020). The *Second Report and Order* implemented section 4(b)(1)(B) of the TRACED Act, in part, by requiring a voice service provider maintain and be ready to provide the Commission upon request with documented proof that it is participating, either on its own or through a representative, including

third party representatives, as a member of a working group, industry standards group, or consortium that is working to develop a non-internet Protocol caller identification authentication solution, or actively testing such a solution. The *Second Report and Order* also implemented the extension mechanisms in section 4(b)(5) by, in part, requiring voice service providers to certify that they have either implemented STIR/SHAKEN or a robocall mitigation program in the Robocall Mitigation Database. On May 19, 2022, the Commission adopted similar obligations for gateway providers. See *Advanced Methods to Target and Eliminate Unlawful Robocalls*, *Call Authentication Trust Anchor*, CG Docket No. 17–59, WC Docket No. 17–97, Sixth Report and Order et al., FCC 22–37 (adopted May 19, 2022). Specifically, like voice service providers, gateway providers were required to maintain and be ready to provide the Commission upon request with documented proof that they are participating, either on their own or through a representative, including third party representatives, as a member of a working group, industry standards group, or consortium that is working to develop a non-internet Protocol caller identification authentication solution, or actively testing such a solution. Gateway providers were also required to implement both STIR/SHAKEN on the IP portions of their networks as well as a robocall mitigation program. They must also certify to their implementation and file a robocall mitigation plan in the Robocall Mitigation Database.

BILLING CODE 6712–01–P

FEDERAL COMMUNICATIONS COMMISSION

[FR ID: 103360]

Privacy Act of 1974; Matching Program

AGENCY: Federal Communications Commission.

ACTION: Notice of a new matching program.

SUMMARY: In accordance with the Privacy Act of 1974, as amended (“Privacy Act”), this document announces a new computer matching program the Federal Communications Commission (“FCC” or “Commission” or “Agency”) and the Universal Service

Administrative Company (USAC) will conduct with the North Carolina Department of Health and Human Services. The purpose of this matching program is to verify the eligibility of applicants to and subscribers of Lifeline, and the Affordable Connectivity Program (ACP), both of which are administered by USAC under the direction of the FCC. More information about these programs is provided in the **SUPPLEMENTARY INFORMATION** section below.

DATES: Written comments are due on or before October 6, 2022. This computer matching program will commence on October 6, 2022, and will conclude 18 months after the effective date.

ADDRESSES: Send comments to Elliot S. Tarloff, FCC, 45 L Street NE, Washington, DC 20554, or to *Privacy@fcc.gov*.

FOR FURTHER INFORMATION CONTACT: Elliot S. Tarloff at 202–418–0886 or *Privacy@fcc.gov*.

SUPPLEMENTARY INFORMATION: The Lifeline program provides support for discounted broadband and voice services to low-income consumers. Lifeline is administered by the Universal Service Administrative Company (USAC) under FCC direction. Consumers qualify for Lifeline through proof of income or participation in a qualifying program, such as Medicaid, the Supplemental Nutritional Assistance Program (SNAP), Federal Public Housing Assistance, Supplemental Security Income (SSI), Veterans and Survivors Pension Benefit, or various Tribal-specific federal assistance programs.

In the Consolidated Appropriations Act, 2021, Public Law 116–260, 134 Stat. 1182, 2129–36 (2020), Congress created the Emergency Broadband Benefit Program (EBBP), and directed use of the National Verifier to determine eligibility based on various criteria, including the qualifications for Lifeline (Medicaid, SNAP, etc.). EBBP provided \$3.2 billion in monthly consumer discounts for broadband service and one-time provider reimbursement for a connected device (laptop, desktop computer, or tablet). In the Infrastructure Investment and Jobs Act, Public Law 117–58, 135 Stat. 429, 1238–44 (2021) (codified at 47 U.S.C. 1751–52), Congress modified and extended EBBP, provided an additional \$14.2 billion, and renamed it the Affordable Connectivity Program (ACP). A household may qualify for the ACP benefit under various criteria, including an individual qualifying for the FCC's Lifeline program.
