II. Background

Growth Products Ltd., P.O. Box 1259, White Plains, NY 10602 has requested an EUP for the microbial pesticide Companion™, based on the active ingredient *Bacillus subtilis* Strain GB03. The proposed duration of the proposed program is 2 years. The EUP is being requested to obtain efficacy and phytotoxicity data, evaluate application rates, and evaluate timing to establish disease control. The target pests include root diseases such as *Rhizoctonia*, *Pythium*, *Erwinia*, *Fusarium*, *Phytophthora*, *Verticillium*, *Sclerotinia*, *Botrytis*, *Anthraco*, fire blight, wilt, crown rot, root rot, downy mildew, and damping off.

The proposed experimental program is to cover a total of 200 acres in 5 states, as follows: California, Florida, New York, North Dakota, and Washington. The rate of application of the pesticide is to be: for field crops, 32 oz. per acre in sufficient water to ensure full coverage; for soil drench application, 16 oz. in 100 gallons of water for cell/plug production; and 1 oz. per 30 gallons of water for closed systems (ebb and flow) and hydroponics.

Proposed crop treatment sites include apples, broccoli, celery, citrus, cotton, grapes (raisin, table and wine), herbs and spices, lettuce (iceberg and leaf), melons, onions, potatoes, strawberries, sunflower, tobacco, and tomatoes. Disease severity and intensity will be observed, as well as measurements of root growth in both length and mass, leaf color, and tissue analysis of nutrient levels, all of which are indicators of healthy plants.

Ground methods of application are proposed, including soil drench application by injection into irrigation systems, and closed systems (ebb and flow) and hydroponics by incorporation

into closed continuous recirculation systems.

III. What Action is the Agency Taking?

Following the review of the Growth Products Limited application and any comments and data received in response to this notice, EPA will decide whether to issue or deny the EUP request for this EUP program, and if issued, the conditions under which it is to be conducted. Any issuance of an EUP will be announced in the **Federal Register**.

IV. What is the Agency's Authority for Taking this Action?

The Agency's authority for taking this action is under 40 CFR part 172, subpart A.

Pesticides; Expedited Review of Experimental Use Permits (EUPs) for Conventional Pesticides

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: The Agency seeks public comment on a draft Pesticide Registration (PR) Notice titled "Guidelines for Expedited Review of Experimental Use Permits (EUPs) for Conventional Pesticides." This draft Notice provides criteria that, if met, can result in a greater number of food use EUPs being issued on an expedited basis for conventional pesticides. EUP applications submitted that meet all of the criteria identified in the Notice will be expedited through the Agency's review process and registrants will not need to utilize their priority slots. The Notice applies to all applicants for EUPs for non-antimicrobial, conventional pesticides. The Notice does not apply to biological pesticides because these pesticides present different risk factors and because the Agency has not heard that the lack of biological pesticide EUPs is an issue.

DATES: Comments, identified by docket control number OPP-00755, must be received on or before February 19, 2002.

ADDRESSES: Comments may be submitted by mail, electronically, or in person. Please follow the detailed instructions for each method as provided in Unit I.C. of the **SUPPLEMENTARY INFORMATION**. To ensure proper receipt by EPA, it is imperative that you identify docket control number OPP-00755 in the subject line on the first page of your response.
