Abstract: The Department of Education (the Department) is seeking a new OMB control number for the collection of URLs hosting institutional contracts and contract data relating to campus banking agreements. This is a new requirement of the final Program Integrity and Improvement regulations published on October 30, 2015. When the Department added the requirement for institutions to post campus banking agreement contracts and contract data to their Web sites, consumer advocates requested that a central repository for these web addresses be made publicly available for research and comparison purposes. This database will allow interested parties, such as students, families, press, institutions, and researchers to easily access and compare banking agreements available at different institutions.
