SUPPLEMENTARY INFORMATION: The Draft EIS documents the potential direct, indirect, and cumulative physical, biological, and socioeconomic environment effects that may result from increasing the reservoir storage capacity.

The Draft EIS evaluates the construction and operation of modified radial gates at Cle Elum Dam to enable a 3-foot raise in the reservoir pool (14,600 acre-feet additional storage capacity), use of the additional stored water to improve instream flows or to supplement the Yakima Project Total Water Supply Available, raising the height of three existing dikes, raising the height of access roads and facilities at the U.S. Forest Service Cle Elum River Campground and Wish-Poosh boat ramp, implementing shoreline protection to reduce erosion, and acquiring private property and easements to accommodate shoreline protection. The primary project objectives are to: (1) Fulfill the intent of the congressional authorization given in Sections 1205 and 1206, Title XII, Yakima River Basin Water Enhancement Project (YRBWEP), of Public Law 103-434, Yavapai-Prescott Indian Tribe Water Rights Settlement Act of 1994; (2) improve aquatic resources for fish habitat, rearing, and migration in the Cle Elum and upper Yakima Rivers; and (3) (if authorized by congress) help meet demands for agricultural water supply.

The primary study area encompasses the Cle Elum Reservoir, the adjacent area that would be inundated by the proposed 3-foot raise in the full-pool reservoir level, and areas that could be directly affected by construction or operations-related activities, including the spillway gates, dikes, adjacent lands, and public recreation resources. The extended study area includes the Cle Elum and Yakima rivers downstream from Cle Elum Dam; lands, municipalities, and instream uses served by Cle Elum and Yakima rivers water rights; and the larger Yakima Project area.

Authority

The YRBWEP, of which the Cle Elum Pool Raise is one component, was authorized in Sections 1205 and 1206 of Title XII of the Yavapai-Prescott Indian Tribe Water Rights Settlement Act of 1994.

The public record for this review may be viewed on the Commission's electronic docket (EDIS) at <http://edis.usitc.gov>.

SUPPLEMENTARY INFORMATION:

Background.—On Friday, September 5, 2014, the Commission determined that the domestic interested party group response to its notice of institution (79 FR 31345, June 2, 2014) of the subject five-year review was adequate and that the respondent interested party group response was inadequate. The Commission did not find any other circumstances that would warrant conducting a full review.¹ Accordingly, the Commission determined that it would conduct an expedited review pursuant to section 751(c)(3) of the Act.

Staff report.—A staff report containing information concerning the subject matter of the review will be placed in the nonpublic record on Wednesday, October 1, 2014, and made available to persons on the Administrative Protective Order service list for this review. A public version will be issued thereafter, pursuant to section 207.62(d)(4) of the Commission's rules.

Written submissions.—As provided in section 207.62(d) of the Commission's rules, interested parties that are parties to the review and that have provided individually adequate responses to the notice of institution,² and any party other than an interested party to the review may file written comments with

the Secretary on what determination the Commission should reach in the review. Comments are due on or before Monday, October 6, 2014, and may not contain new factual information. Any person that is neither a party to the five-year review nor an interested party may submit a brief written statement (which shall not contain any new factual information) pertinent to the review by Monday, October 6, 2014. However, should the Department of Commerce extend the time limit for its completion of the final results of its review, the deadline for comments (which may not contain new factual information) on Commerce's final results is three business days after the issuance of Commerce's results. If comments contain business proprietary information (BPI), they must conform with the requirements of sections 201.6, 207.3, and 207.7 of the Commission's rules. Please be aware that the Commission's rules with respect to filing have been amended. The amendments took effect on July 25, 2014. See 79 FR 35920 (June 25, 2014) and the revised Commission's Handbook on E-Filing, available on the Commission's Web site at <http://edis.usitc.gov>.

In accordance with sections 201.16(c) and 207.3 of the rules, each document filed by a party to the review must be served on all other parties to the review (as identified by either the public or BPI service list), and a certificate of service must be timely filed. The Secretary will not accept a document for filing without a certificate of service.

Authority: This review is being conducted under authority of title VII of the Tariff Act of 1930; this notice is published pursuant to section 207.62 of the Commission's rules.

By order of the Commission.

Issued: September 18, 2014.

Lisa R. Barton,

Secretary to the Commission.
