

ESTIMATES OF ANNUALIZED HOUR BURDEN<sup>1</sup>—CSAT GPRA CLIENT OUTCOME MEASURES FOR DISCRETIONARY PROGRAMS—Continued

Center/form/respondent type	Number of respondents	Responses per respondent	Total responses	Hours per response	Total hour burden	Added burden proportion <sup>2</sup>	Total annual burden hours
Total .....	326,586 .....	.....	1,050,236	.....	165,841	.....	66,326

## NOTES:

<sup>1</sup> This table represents the maximum additional burden if adult respondents, for the discretionary services programs including ATR, provide three sets of responses/data and if CSAT adolescent respondents provide four sets of responses/data.

<sup>2</sup> Added burden proportion is an adjustment reflecting customary and usual business practices programs engage in (e.g., they already collect the data items).

<sup>3</sup> Screening, Brief Intervention, Treatment and Referral (SBIRT) grant program:

\* 150,618 Screening Only (SO) respondents complete section A of the GPRA instrument, all of these items are asked during a customary and usual intake process resulting in zero burden; and

\* 27,679 Brief Intervention (BI) respondents complete sections A & B of the GPRA instrument, all of these items are asked during a customary and usual intake process resulting in zero burden; and

\* 9,200 Brief Treatment (BT) & Referral to Treatment (RT) respondents complete all sections of the GPRA instrument.

<sup>4</sup> Data Extract by Grants: Grant burden for capturing customary and usual data.

<sup>5</sup> Upload: All 24 ATR grants upload data.

<sup>6</sup> Upload: 5 of the 7 SBIRT grants upload data; the other 2 grants conduct direct data entry.

The estimates in this table reflect the maximum annual burden for currently funded discretionary services programs. The number of clients/participants served in following years is estimated to be the same assuming level funding of the discretionary programs, resulting in the same annual burden estimate for those years.

Written comments and recommendations concerning the proposed information collection should be sent by December 31, 2008 to: SAMHSA Desk Officer, Human Resources and Housing Branch, Office of Management and Budget, New Executive Office Building, Room 10235, Washington, DC 20503; due to potential delays in OMB's receipt and processing of mail sent through the U.S. Postal Service, respondents are encouraged to submit comments by fax to: 202-395-6974.

Dated: November 24, 2008.

**Elaine Parry,**

### Substance Abuse and Mental Health Services Administration

#### Center for Substance Abuse Treatment; Notice of Meeting

Pursuant to Public Law 92-463, notice is hereby given of the meeting of the Center for Substance Abuse Treatment (CSAT) National Advisory Council on December 11, 2008.

The meeting is open to the public and will include discussion of the Center's policy issues, and current

administrative, legislative, and program developments.

Attendance by the public will be limited to space available. Public comments are welcome. Please communicate with the CSAT Council's Designated Federal Official, Ms. Cynthia Graham (see contact information below), to make arrangements to attend, comment or to request special accommodations for persons with disabilities.

Substantive program information, a summary of the meeting, and a roster of Council members may be obtained as soon as possible after the meeting, either by accessing the SAMHSA Committee Web site, <http://www.nac.samhsa.gov/CSAT/csatnac.aspx>, or by contacting Ms. Graham. The transcript for the meeting will also be available on the SAMHSA Committee Web site within three weeks after the meeting.

*Committee Name:* Substance Abuse and Mental Health Services Administration, CSAT National Advisory Council.

*Date/Time/Type:* December 11, 2008. From 8:30 a.m.–5 p.m.: Open.

*Place:* 1 Choke Cherry Road, Sugarloaf and Seneca Conference Rooms, Rockville, Maryland 20857.

*Contact:* Cynthia Graham, M.S., Designated Federal Official, SAMHSA/CSAT National Advisory Council, 1 Choke Cherry Road, Room 5-1036, Rockville, MD 20857, Telephone: (240) 276-1692.

*Fax:* (240) 276-1690, E-mail: [cynthia.graham@samhsa.hhs.gov](mailto:cynthia.graham@samhsa.hhs.gov).

**Toian Vaughn,**

## DEPARTMENT OF HOMELAND SECURITY

### Office of the Secretary

#### Published Privacy Impact Assessments on the Web

**AGENCY:** Privacy Office, DHS.

**ACTION:** Notice of Publication of Privacy Impact Assessments.

**SUMMARY:** The Privacy Office of the Department of Homeland Security (DHS) is making available eighteen (18) Privacy Impact Assessments on various programs and systems in the Department. These assessments were approved and published on the Privacy Office's Web site between July 1 and September 30, 2008.

**DATES:** The Privacy Impact Assessments will be available on the DHS Web site until January 30, 2009, after which they may be obtained by contacting the DHS Privacy Office (contact information below).

**FOR FURTHER INFORMATION CONTACT:** Hugo Teufel III, Chief Privacy Officer, Department of Homeland Security, Mail Stop 0550, Washington, DC 20528, or e-mail: pia@dhs.gov.

**SUPPLEMENTARY INFORMATION:** Between July 1 and September 30, 2008, the Chief Privacy Officer of the Department of Homeland Security (DHS) approved and published eighteen (18) Privacy Impact Assessments (PIAs) on the DHS Privacy Office Web site, <http://www.dhs.gov/privacy>, under the link for "Privacy Impact Assessments." These PIAs cover eighteen (18) separate DHS programs. Below is a short summary of those programs, indicating the DHS component responsible for the system, and the date on which the PIA was approved. Additional information can be found on the Web site or by contacting the Privacy Office.

**System:** United States Visitor and Immigrant Status Indicator Technology Program/Department of Homeland Security and the United Kingdom Border Agency's International Group Visa Services Project.

**Component:** US-VISIT.

**Date of approval:** July 1, 2008.

DHS provides the United Kingdom Border Agency's (UKBA) International Group Visa Services (formerly known as UKvisas) with additional information to determine whether visa applicants for entry into the United Kingdom are eligible to obtain a visa or other travel documents according to applicable United Kingdom laws. Accordingly, the United States Visitor and Immigrant Status Indicator Technology (US VISIT) Program will receive biometric and biographic information from UKBA International Group Visa Services about applicants for visas to the United Kingdom and will query those applicants' biometric information against the Automated Biometric Identification System's (IDENT) list of subjects of interest (e.g., "Subjects of interest" are people of interest to the U.S. or international law enforcement and/or intelligence agencies because of suspected or confirmed illegal activity). US-VISIT provides UKBA with results from the query, along with, in some cases, details of the analysis supporting the returned results. US-VISIT published this PIA because US-VISIT will receive and share personally identifiable information (PII) with the UKBA.

**System:** Procedures for Processing Travel Documents at the Border.

**Component:** Customs and Border Protection.

**Date of approval:** July 2, 2008.

U.S. Customs and Border Protection (CBP), published this PIA to give notice of its procedures for recording certain border crossing information and validating the travel documents provided by individuals at air, land, and sea ports of entry who are admitted or paroled into the United States. CBP maintains information regarding persons who are admitted or paroled into the United States, and where applicable exit the United States in accordance with the Privacy Act system of records notices for the Border Crossing Information (BCI) and for the Treasury Enforcement Communications System (TECS), which is being revised and will be republished in the future as TECS (no longer an acronym).

As part of processing travelers at the border, CBP accepts different types of documents for purposes of establishing the identity, citizenship, and admissibility of travelers seeking to enter the United States. CBP populates BCI with certain information provided by or on behalf of persons who are admitted, paroled into, or depart the U.S. In addition the information maintained by BCI regarding such persons may be derived from different

DHS systems of records, Department of State systems of records, and the systems of other governmental or tribal authorities (including foreign governments). CBP uses this information to validate the travel documentation provided by or on behalf of the individual, make determinations regarding an individual's admissibility, and ensure compliance with all other U.S. laws enforced by CBP at the border.

This PIA explains the information technology and the information flow between BCI, TECS, and other Privacy Act system of records, including the Non-Federal Entity Data System.

**System:** Operations Center Incident Management System.

**Component:** Transportation Security Administration.

**Date of approval:** July 7, 2008.

Under the Aviation and Transportation Security Act (ATSA), the Transportation Security Administration (TSA) has "responsibility for security in all modes of transportation." TSA uses an operations center incident management system called WebEOC to perform incident management, coordination, and situation awareness functions for all modes of transportation. The system stores information that it receives about the following categories of individuals: (1) Individuals who violate, or are suspected of violating transportation security laws, regulations, policies or procedures; (2) individuals whose behavior or suspicious activity resulted in referrals by Ticket Document Checkers (TDC) to Behavior Detection Officer (BDO) or Law Enforcement Officer (LEO) interview (primarily at airports); or (3) individuals whose identity must be verified, or checked against Federal watch lists. Individuals whose identity must be verified includes both those individuals who fail to show acceptable identification documents to compare to boarding documents and law enforcement officials seeking to fly armed. The system also collects and compiles reports from Federal, state, local, tribal, or private sector security officials related to incidents that may pose a threat to transportation or national security. Daily reports will be provided to executives at TSA and DHS to assist in incident and operational response management.

**System:** RealEyes Project.

**Component:** Science & Technology.

**Date of approval:** July 21, 2008.

RealEyes is a research and development project in the DHS Science & Technology Directorate (S&T) that seeks to test the operational
