SUPPLEMENTARY INFORMATION: The mission of the Office of Minority Health (OMH) at the U.S. Department of Health and Human Services (HHS) is to improve the health of racial and ethnic minority populations through the development of health policies and programs that will help eliminate health disparities. Key strategies of the OMH mission include:

- Developing and promoting policies, programs and practices to achieve health equity;
- Funding demonstration programs at the regional, state and local level that can contribute to health policy and the effectiveness of strategies for improving health;
- Improving data collection, reporting and sharing for ethnic and racial minority populations;
- Fostering research and evaluation; and
- Establishing and strengthening networks, coalitions and partnerships to identify and solve health problems.

OMH observes National Minority Health Month every year in April to highlight the health disparities that persist among racial and ethnic minority populations and the ways in which policies, programs and partnerships can help advance health equity. The HHS OMH establishes the national theme and serves as the lead HHS office for the observance of National Minority Health Month.

The theme for 2019 is Active & Healthy and is intended to help promote the second edition of the HHS Physical Activity Guidelines and the Move Your Way Campaign from the HHS Office of Disease Prevention and Health Promotion, especially among racial and ethnic minorities. OMH's main activity for this year's observance is the National Minority Health Month Steps Challenge (Challenge). The Challenge will occur throughout the month of April and OMH will enlist teams and individuals to participate from federal, state and local governments, community-based organizations and tribal communities, who want to show their commitment to

an active lifestyle. Activities and materials throughout the month will highlight the overall message that physical activity promotes health and reduces the risk of chronic disease.
