[EPA–R09–OAR–2020–0573; FRL–9453–01–R9]

Air Plan Approval; California; Mojave Desert Air Quality Management District, Placer County Air Pollution Control District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking final action to approve revisions to the Mojave Desert Air Quality Management District (MDAQMD) and the Placer County Air Pollution Control District (PCAPCD) portions of the California State Implementation Plan (SIP). These revisions concern emissions of volatile organic compounds (VOCs) from metal

coating operations and general regulatory definitions. We are also finalizing the rescission of South Coast Air Quality Management District (SCAQMD) Rule 1107, Coating of Metal Parts and Products, as it applies to the Riverside County portion of the MDAQMD. We are approving these revisions, including local rules and a rescission, under the Clean Air Act (CAA or the Act).

DATES: This rule is effective on June 8, 2022.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA–R09–OAR–2020–0573. All documents in the docket are listed on the <https://www.regulations.gov> website. Although listed in the index, some information is not publicly available, e.g., Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. I. Proposed Action

On May 20, 2021,¹ the EPA proposed to approve the following rules into the California SIP.

Local agency	Rule No.	Rule title	Amended	Submitted
MDAQMD	1115	Metal Parts & Products Coating Operations	June 8, 2020	July 24, 2020.
PCAPCD	102	Definitions	June 11, 2020	July 24, 2020.

We proposed to approve these rules because we determined that they comply with the relevant CAA requirements.

In addition to replacing the previous versions of the submitted rules listed in Table 1, the EPA proposed to rescind South Coast Air Quality Management District (SCAQMD) Rule 1107, Coating of Metal Parts and Products, as it applies to the Riverside County portion of the MDAQMD, as requested by the California Air Resources Board (CARB).² In our May 20, 2021 proposal, the EPA also proposed to approve revisions

to SCAQMD Rule 1107; however, we are not finalizing that action at this time. Our proposed action contains more information on the rules and our evaluation.

II. Public Comments and EPA Responses

The EPA’s proposed action provided a 30-day public comment period. We received three comments during this period, and each one was supportive of this proposed action.

provisions are previous versions of the Rule that were replaced by more recent versions, and are therefore no longer in the SIP, EPA is interpreting this as a request to remove the latest (and only)

III. EPA Action

No comments were submitted that change our assessment of the rules and rule rescission discussed above and as described in our proposed action. Therefore, as authorized in section 110(k)(3) of the Act, the EPA is fully approving these rules and rule rescission into the California SIP

IV. Incorporation by Reference

In this rule, the EPA is finalizing regulatory text that includes incorporation by reference. In

version of SCAQMD Rule 1107 applicable in the Riverside County portion of the MDAQMD, namely, the version submitted on May 13, 1993, and listed at 40 CFR 52.220(c)(193)(i)(A)(1).

¹ 86 FR 27344.

² CARB’s rescission request cites to four Code of Federal Regulations (CFR) provisions for SCAQMD Rule 1107; however, since three of the CFR

accordance with requirements of 1 CFR 51.5, the EPA is finalizing the incorporation by reference of the MDAQMD and the PCAPCD rules described in section I. of this preamble and set forth below in the amendments to 40 CFR part 52. The EPA has made, and will continue to make, these documents available through www.regulations.gov and at the EPA Region IX Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information).

V. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves state law as meeting federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would

be inconsistent with the Clean Air Act; and

- Does not provide the EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where the EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. The EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by July 8, 2022. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

Air Plan Approval; SC; 2018 General Assembly Miscellaneous Revisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is finalizing approval of a State Implementation Plan (SIP) revision submitted by the State of South Carolina, through the South Carolina Department of Health and Environmental Control (SC DHEC or Department), on April 24, 2020. The SIP revision updates the numbering and formatting of South Carolina’s regulations applicable to emissions inventories, emissions statements, and credible evidence. EPA is finalizing approval of these changes pursuant to the Clean Air Act (CAA or Act) and implementing Federal regulations.

DATES: This rule is effective June 8, 2022.

ADDRESSES: EPA has established a docket for this action under Docket Identification No. EPA–R04–OAR–2020–0445. All documents in the docket are listed on the www.regulations.gov website. Although listed in the index, some information may not be publicly available, *i.e.*, Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. SUPPLEMENTARY INFORMATION:

I. Background

On April 24, 2020, SC DHEC submitted a SIP revision to EPA for approval that includes changes to South Carolina Regulation 61–62.1, *Definitions and General Requirements*. In this document, EPA is finalizing approval to incorporate into South Carolina’s SIP updates to Section III—*Emissions Inventory and Emissions Statements* and Section V—*Credible Evidence* of South Carolina Regulation 61–62.1.¹ EPA is finalizing approval of these changes because they meet the requirements of and are consistent with the CAA.

In a notice of proposed rulemaking (NPRM) published in the *Federal Register* on March 8, 2022 (87 FR 12902), EPA proposed to approve the aforementioned changes from South Carolina’s April 24, 2020, SIP revision. The details of South Carolina’s submittal and the rationale for EPA’s approval are further explained in the March 8, 2022, NPRM. Comments on the March 8, 2022, NPRM were due on or before April 7, 2022. EPA did not receive any comments, adverse or otherwise, on the March 8, 2022, NPRM.

II. Incorporation by Reference

In this document, EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, EPA is finalizing the incorporation by reference of South Carolina’s Regulation 61–62.1, *Definitions and General Requirements*, Section III—*Emissions Inventory and Emissions Statements* and Section V—*Credible Evidence*, state effective on April 24,

¹ The April 24, 2020, submittal from SC DHEC includes other updates and revisions as well. EPA previously acted on Section I—*Definitions* of South Carolina Regulation 61–62.1. See 86 FR 59641 (October 28, 2021). EPA has not taken action on Section II—*Permit Requirements* and Section IV—*Source Tests* of South Carolina Regulation 61–62.1. EPA will address these other provisions in separate actions.

2020. EPA has made, and will continue to make, these materials generally available through www.regulations.gov and at the EPA Region 4 Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information). Therefore, these materials have been approved by EPA for inclusion in the SIP, have been incorporated by reference by EPA into that plan, are fully federally enforceable under sections 110 and 113 of the CAA as of the effective date of the final rulemaking of EPA’s approval, and will be incorporated by reference in the next update to the SIP compilation.²

III. Final Action

EPA is finalizing approval of revisions to the SIP-approved version of South Carolina’s Regulation 61–62.1, Section III—*Emissions Inventory and Emissions Statements* and Section V—*Credible Evidence*, state effective on April 24, 2020. EPA has determined that these revisions meet the applicable requirements of section 110 of the CAA and the applicable regulatory requirements at 40 CFR part 51.

IV. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. See 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. This action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);

² See 62 FR 27968 (May 22, 1997).
