SUPPLEMENTARY INFORMATION:

Title of Collection: NSF Surveys to Measure Customer Service Satisfaction.
OMB Number: 3145-0157.

Expiration Date of Approval: August 31, 2005.

Type of Request: Intent to seek approval to renew an information collection.

Abstract

Proposed Project: On September 11, 1993, President Clinton issued Executive Order 12862, "Setting Customer Service Standards," which calls for Federal agencies to provide service that matches or exceeds the best service available in the private sector. Section 1(b) of that order requires agencies to "survey customers to determine the kind and quality of services they want and their level of satisfaction with existing services." The National Science Foundation (NSF) has an ongoing need to collect information from its customer community (primarily individuals and organizations engaged in science and engineering research and education) about the quality and kind of services it provides and use that information to help improve agency operations and services.

Estimate of Burden: The burden on the public will change according to the needs of each individual customer satisfaction survey; however, each survey is estimated to take approximately 30 minutes per response.

Respondents: Will vary among individuals or households; business or other for-profit; not-for-profit institutions; farms; Federal Government; State, local or tribal governments.

Estimated Number of Responses per Survey: This will vary by survey.

Comments: Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Dated: January 14, 2005.
