Title: Risk-Based Capital Standards.
OMB Control No.: 1557-0318.

Affected Public: Businesses or other for-profit.

Type of Review: Regular.

¹ On September 24, 2020 the OCC published a 60-day notice for this information collection, 85 FR 60281.

Abstract: The OCC is seeking to renew the emergency approval granted for an addition to the OCC's Risk-Based Capital information collection. The addition was made necessary by an interim final rule that introduced a new notice opt-in requirement and a requirement for prior approval for distributions.² A national bank or Federal savings association, when calculating on-balance sheet assets as of each day of a reporting quarter for purposes of determining the national bank's or Federal savings association's total leverage exposure, may (on a temporary basis) exclude the balance sheet carrying value of U.S. Treasury securities and funds on deposit at a Federal Reserve Bank. Before applying this relief, a national bank or Federal savings association must first notify the OCC. During the calendar quarter beginning on July 1, 2020 and continuing until March 31, 2021, no national bank or Federal savings association that has opted into this relief may make a distribution, or create an obligation to make such a distribution, without prior OCC approval.
