

contact the USDA agency or staff office responsible for the program or transaction in question.

Forms AD-3030, AD-3030-Y and AD-3030-FS will effectuate compliance with the appropriations restrictions by requiring all corporate applicants to represent, at the time of application for a non-procurement program, whether they have tax delinquencies or felony convictions that would prevent USDA from doing business with them. Corporations include, but are not limited to, any entity that has filed articles of incorporation in one of the 50 States, the District of Columbia, or the various territories of the United States. Corporations include both for profit and non-profit entities. Forms AD-3031, AD-3031-Y and AD-3031-FS require an affirmative representation, at the time of the award, that corporate awardees for non-procurement transactions do not have tax delinquencies or felony convictions that would prevent USDA from doing business with them. If the application and award process are a single step, the agency or staff office may require both forms to be filed simultaneously. Collection of this information is necessary to ensure that USDA agencies and staff offices comply with the appropriations restrictions prohibiting the Government from doing business with corporations with tax delinquencies or felony convictions.

The burden for each form will be accounted for within the individual USDA agency and staff office collection packages using the forms. The time required to complete this information collection is estimated to average 0.25 minutes per response, per form, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

USDA's Office of the Chief Financial Officer (OCFO) is requesting approval for one respondent and a one hour place holder for the forms. The total estimated burden for the OCFO's use of the forms is thus one hour, which will allow it to distribute the approved forms to USDA agencies and staff offices. USDA agencies and staff offices using the forms will reflect the approved OMB control number of the package and account for the burden within their individual collection packages when they seek Office of Management and Budget approval or re-authorization.

Respondents: Corporate applicants and awardees for USDA non-procurement programs, including grants, cooperative agreements, loans, loan guarantees, some memoranda of

understanding/agreement, and non-procurement contracts.

Estimated Total Annual Responses: 1.
Frequency of Collection: Other: Corporations—each time they apply to participate in a multitude of USDA non-procurement programs; Awardees each time they receive an award.

Estimated Total Annual Burden Hours on Respondents: 1.

Departmental Information Collection Clearance Officer.

Title: Generic Clearance of Survey Improvement Projects

OMB Control Number: 0535-0248

Summary of Collection: The primary objectives of the National Agricultural Statistics Service (NASS) are to prepare and issue State and national estimates of crop and livestock production, economic and environmental statistics related to agriculture and to conduct the Census of Agriculture under the general authority of Title 7 U.S.C. Sec. 2204. The purpose of this generic clearance is to allow NASS to respond quickly to emerging issues and data collection needs. NASS will continue to develop, test, evaluate, adopt, and use state-of-the-art techniques to cover a broad range of topics designed to improve NASS' data collection on agriculture.

Need and Use of the Information: NASS will use a number of survey improvement techniques, as appropriate to the individual project under investigation. These include focus groups, cognitive and usability laboratory and field techniques, exploratory interviews, behavior coding, respondent debriefing, pilot surveys and split-panel tests. The information gathered will be used mainly for questionnaire development and other research and evaluation. Additionally, NASS anticipates the benefit of increased response rates through improved survey design, a goal tied directly to addressing OMB requirements for higher response rates and measurement of non-response bias.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 15,000.
