Notice of Availability of a Safe Harbor Agreement and Receipt of Application for an Enhancement of Survival Permit for Activities on the (Crosswhite) EC Bar Ranch, Apache County, AZ

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability and 30-day public comment period.

SUMMARY: James W. Crosswhite (Applicant) has applied to the U.S. Fish and Wildlife Service (Service) for an enhancement of survival permit pursuant to section 10(a)(1)(A) of the Endangered Species Act (Act). The permit application includes a proposed Safe Harbor Agreement between the Applicant and the Service. The Applicant has been assigned permit number TE-075891-0. The proposed Agreement and permit would become effective upon signature of the Agreement and both would remain in effect for 50 years. The requested permit would authorize take of two federally listed species—the endangered southwestern willow flycatcher (*Empidonax traillii extimus*) and the threatened Little Colorado River spinedace (*Lepidomeda vittata*). The proposed take could occur as a result of conservation measures implemented on 2.5 miles of Nutrioso Creek in Apache County, Arizona.

Based upon guidance in the Service's June 17, 1999, Final Safe Harbor Policy, if a Safe Harbor Agreement and associated permit are not expected to individually or cumulatively have a significant impact on the quality of the human environment or other natural resources, the Agreement/permit may be categorically excluded from undergoing National Environmental Policy Act (NEPA) review. We have made a preliminary determination that the proposed Agreement and permit application qualify as a "Low Effect"
