**SUPPLEMENTARY INFORMATION:** On December 3, 2024, PHMSA received a request from GPLNG to renew special permit PHMSA–2018–0042 for three more years after the expiration date, which will extend the term of the special permit until June 3, 2028. Special permit PHMSA–2018–0042 allows GPLNG to deviate from the Federal pipeline safety regulations in 49 CFR 193.2603(a) and (b); 193.2607; 193.2609; 193.2619(c) and (e); 193.2631; and 193.2635(e) at the GPLNG Terminal, where all LNG facilities are under nitrogen purge. The GPLNG Terminal has not been operational since June 2012.

PHMSA granted special permit PHMSA–2018–0042 on June 3, 2019 with an original expiration date of June 2, 2025 for the GPLNG Terminal located in Jefferson County, Texas. The GPLNG Terminal consists of marine berths, LNG storage tanks, vaporization facilities, and other supporting facilities for LNG import operations. The additional three-year term will allow GPLNG to complete construction of the export facilities, including three liquefaction trains, and connect them to the existing facilities at the GPLNG Terminal for LNG export operations.

GPLNG’s renewal request, active special permit with conditions, and final environmental assessment (FEA) are available for review and public comment in Docket No. PHMSA–2018–

0042. The existing FEA, with a conclusion of no significant negative impact, remains adequate, pursuant to the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*). No further environmental assessment is required for this proposal. PHMSA invites interested persons to review and submit comments in the docket on the special permit renewal request. Please submit comments on any potential safety, environmental, and other relevant considerations implicated by the special permit renewal request. Comments may include relevant data.

Before issuing a decision on the special permit request, PHMSA will evaluate all comments received on or before the closing date. Comments received after the closing date will be evaluated if it is possible to do so without incurring additional expense or delay. PHMSA will consider each relevant comment it receives in making its decision to grant or deny this special permit request.

Issued in Washington, DC, on June 2, 2025 under authority delegated in 49 CFR 1.97.
