Fisheries of the U.S. Caribbean; Southeast Data, Assessment, and Review (SEDAR); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR 84 Assessment Webinar IV for U.S. Caribbean Yellowtail Snapper and Stoplight Parrotfish.

SUMMARY: The SEDAR 84 assessment process of U.S. Caribbean yellowtail snapper and stoplight parrotfish will consist of a Data Workshop, and a series of assessment webinars, and a Review Workshop. See **SUPPLEMENTARY INFORMATION**.

DATES: The SEDAR 84 assessment webinar IV will be held June 12, 2024, from 2 p.m. to 5 p.m., Eastern Time.

ADDRESSES: The meeting will be held via webinar. The webinar is open to members of the public. Those interested in participating should contact Julie A. Neer at SEDAR (see **FOR FURTHER INFORMATION CONTACT**) to request an invitation providing webinar access information. Please request webinar invitations at least 24 hours in advance of each webinar.

SEDAR address: 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405.

FOR FURTHER INFORMATION CONTACT: Julie A. Neer, SEDAR Coordinator; (843) 571–4366; email: Julie.neer@safmnc.net.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a multi-step process including: (1) Data Workshop, (2) a series of assessment webinars, and (3) A Review Workshop. The product of the Data Workshop is a report that compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The assessment webinars produce a report that describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and

monitoring needs. The product of the Review Workshop is an Assessment Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion during the Assessment Webinar IV are as follows:

Panelists will review and discuss and finalize the assessment modeling for yellowtail snapper in Puerto Rico.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**) at least 5 business days prior to each workshop.

Note: The times and sequence specified in this agenda are subject to change.

SUPPLEMENTARY INFORMATION:

Agenda

The Groundfish Advisory and Recreational Panels will meet jointly to update industry with share perspectives on fishery performance the past year and considerations for the current fishing year, with a focus on U.S./CA stocks, and other stocks as time permits. They will also review draft alternatives for cod stock unit definitions (for Amendment 25), review work to develop options to prorate catch limits from four cod stock units to two current management units (for Framework 69), receive an update on analysis of fishery data, and receive update from public workshops. The Panels will receive a report on Framework Adjustment 69/ Specifications and Management Measures (to be initiated) that is anticipated to include status determination criteria for cod stocks, fishing years (FY) 2025-2027

specifications for Eastern Gulf of Maine (GOM) cod, Western GOM cod, Georges Bank (GB) cod, Southern New England cod, GOM haddock, GB haddock, American plaice, witch flounder, pollock, and Atlantic halibut, FY2025-2026 U.S./Canada total allowable catches (TACs) for, Eastern GB cod, Eastern GB haddock, and GB yellowtail flounder, revisions to sub-annual catch limits and accountability measures triggers for yellowtail flounder (Southern New England/Mid-Atlantic and Georges Bank) and windowpane flounder (northern and southern) in the scallop fishery, and sector reporting requirements. They will also receive an update on information the Habitat and Scallop Plan Development Teams are considering as they develop alternatives for the Northern Edge Habitat-Scallop framework, with a focus on approaches to minimize impacts to juvenile cod and their habitats as well as make recommendations to the Groundfish Committee, as appropriate.

Other business will be discussed as necessary.

Although non-emergency issues not contained on the agenda may come before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C 1852, a copy of the recording is available upon request.
