Synopsis

The Commission reminds video programming distributors and the public of the upcoming closed captioning benchmark for "pre-rule" English language nonexempt video programming. As of January 1, 2008, 75% of all nonexempt pre-rule English language programming must be captioned per channel, per calendar quarter. Pre-rule video programming is programming that was first published or exhibited *before* January 1, 1998 (for analog programming) or before July 1, 2002 (for digital programming). Nonexempt programming is video programming that is not exempt pursuant to a self-implementing exemption found in 47 CFR 79.1(d) of the Commission's rules, or pursuant to an exemption based on the undue burden standard found in 47 CFR 79.1(f) of the Commission's rules, and, accordingly, is subject to closed captioning requirements. These closed captioning requirements are separate from video programming distributors' obligations to make emergency information accessible to persons with hearing and vision disabilities.
