

outages do not typically occur with the same frequency as terrestrial outages, but when they do occur have a greater impact on the Nation's telecommunications due to the volume and nature of communications carried over such cables. Damages to submarine cables are usually caused by weather or inadvertent slicing by underseas equipment. However, submarine cables are also susceptible to intentional damage for nefarious purposes that could lead to a severe degradation of crucial government, as well as non-government, communications.

[WC Docket No. 19-195, 11-10; DA 20-1460; FRS 17313]

### Office of Economics and Analytics Reminds Providers That Form 477 Mobile Speed and Coverage Data Are Not Confidential

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice.

**SUMMARY:** In this Public Notice, the Office of Economics and Analytics (Office) reminds mobile broadband service providers that their minimum advertised or expected speed data are not confidential on FCC Form 477, notwithstanding checkbox options in the Form 477 filing application.

**DATES:** The Commission issued this Public Notice on December 7, 2020.

**ADDRESSES:** Federal Communications Commission, 45 L Street NE, Washington, DC 20554.

**FOR FURTHER INFORMATION CONTACT:** Kenneth Lynch, Chief, Industry Analysis Division, Office of Economics and Analytics, (202) 418-7356, [Kenneth.Lynch@fcc.gov](mailto:Kenneth.Lynch@fcc.gov).

**SUPPLEMENTARY INFORMATION:** The Office of Economics and Analytics (Office) reminds mobile broadband service providers that their minimum advertised or expected speed data are no longer treated as confidential on FCC Form 477. Speed data will be included in the public releases of provider-specific coverage data, beginning with the December 2019 filing.

In the Digital Opportunity Data Collection First Report and Order, the Commission concluded that minimum advertised or expected speed data filed

for mobile broadband services will not be treated as confidential and that such data will be publicly released. The Commission found that the bulk of speed data that providers filed had been treated as confidential and that such treatment “unnecessarily limits the ability of consumers and policy makers to effectively analyze the data submitted.” The Commission also concluded that public release of provider-specific coverage data is “necessary to ensure that consumers can easily use the information that is disclosed to the public” because speed data are “only beneficial if consumers know where the service coverage is available.”

The Commission already makes provider-specific coverage data publicly available on its website by publishing each provider's shapefiles, and Form 477 filers are no longer permitted to request confidential treatment for such information. As the Commission did not subsequently and immediately update the Form 477 filing application to remove the checkbox used to request confidential treatment of these data, some providers may mistakenly believe that confidentiality is available for such data.

Accordingly, the Office reiterates that, notwithstanding the presence of the checkbox in the Form 477 filing application, the Commission has concluded that these data will not be treated as confidential. Moreover, the corresponding Form 477 information that was included in the December 2019 and June 2020 filings will be released no sooner than ten (10) days after **Federal Register** publication of this Public Notice.

*Privacy Impact Assessment(s):* The FCC is preparing a PIA.

*Needs and Uses:* The information collection requirements that are approved under this collection are as follows:

47 CFR 73.1212 requires a broadcast station to identify at the time of broadcast the sponsor of any matter for which consideration is provided. For advertising commercial products or services, generally the mention of the name of the product or service constitutes sponsorship identification. In the case of television political advertisements concerning candidates for public office, the sponsor shall be identified with letters equal to or greater than four (4) percent of the vertical height of the television screen that airs for no less than four (4) seconds. In addition, when an entity rather than an individual sponsors the broadcast of matter that is of a political or controversial nature, licensee is required to retain a list of the executive officers, or board of directors, or executive committee, etc., of the organization paying for such matter. Sponsorship announcements are waived with respect to the broadcast of "want ads" sponsored by an individual but the licensee shall maintain a list showing the name, address and telephone number of each such advertiser. These lists shall be made available for public inspection.

47 CFR 73.1212(e) states that, when an entity rather than an individual sponsors the broadcast of matter that is of a political or controversial nature, the licensee is required to retain a list of the executive officers, or board of directors, or executive committee, etc., of the organization paying for such matter in its public file. Pursuant to the changes contained in 47 CFR 73.1212(e) and 47

CFR 73.3526(e)(19), this list, which could contain personally identifiable information, would be located in a public inspection file to be located on the Commission's website instead of being maintained in the public file at the station. Burden estimates for this change are included in OMB Control Number 3060-0214.

47 CFR 76.1615 states that, when a cable operator engaged in origination cablecasting presents any matter for which money, service or other valuable consideration is provided to such cable television system operator, the cable television system operator, at the time of the telecast, shall identify the sponsor. Under this rule section, when advertising commercial products or services, an announcement stating the sponsor's corporate or trade name, or the name of the sponsor's product is sufficient when it is clear that the mention of the name of the product constitutes a sponsorship identification. In the case of television political advertisements concerning candidates for public office, the sponsor shall be identified with letters equal to or greater than four (4) percent of the vertical height of the television screen that airs for no less than four (4) seconds.

47 CFR 76.1715 state that, with respect to sponsorship announcements that are waived when the broadcast/origination cablecast of "want ads" sponsored by an individual, the licensee/operator shall maintain a list showing the name, address and telephone number of each such advertiser. These lists shall be made available for public inspection.
