*Needs and Uses:* This notice and request for comments seeks to revise an existing information collection as it pertains to the Advanced Methods to Target and Eliminate Unlawful Robocalls Sixth Report and Order and Call Authentication Trust Anchor Fifth Report and Order (“Gateway Provider Report and Order”), FCC 22–37. These revisions stem from the Advanced Methods to Target and Eliminate Unlawful Robocalls Eighth Report and Order (“Call Blocking Eighth Report and Order”), FCC 25–15. Unwanted and illegal robocalls have long been the Commission's top source of consumer complaints and one of the Commission's top consumer protection priorities. Foreign-originated robocalls represent a significant portion of illegal robocalls, and gateway providers serve as a critical choke-point for reducing the number of illegal robocalls received by American consumers. In the Gateway Provider Report and Order, the Commission took steps to prevent these foreign-originated illegal robocalls from reaching consumers and to help track these calls back to the source.

Call Blocking Eighth Report and Order, FCC 25–15, paras. 9–14, 47 CFR 64.1200(o).

A voice service provider must block any calls purporting to originate from a number on a reasonable do-not-originate list. A list so limited in scope that it leaves out obvious numbers that could be included with little effort may be deemed unreasonable. The do-not-originate list may include only:

(i) Numbers for which the subscriber to which the number is assigned has requested that calls purporting to

originate from that number be blocked because the number is used for inbound calls only;

(ii) North American Numbering Plan numbers that are not valid;

(iii) Valid North American Numbering Plan Numbers that are not allocated to a provider by the North American Numbering Plan Administrator; and

(iv) Valid North American Numbering Plan numbers that are allocated to a provider by the North American Numbering Plan Administrator, but are unused, so long as the provider blocking the calls is the allocatee of the number and confirms that the number is unused or has obtained verification from the allocatee that the number is unused at the time of blocking.

The modified information collection for which OMB approval is sought comes from the revisions in the Eighth Call Blocking Report and Order (Call Blocking Eighth Report and Order at paras. 9–14) to the requirement originally adopted in the Gateway Provider Report and Order (Gateway Provider Order at paras. 87–91). The categories of numbers that may be included on the reasonable DNO list are the same categories of numbers for which the Commission first authorized blocking in 2017 (Gateway Provider Order at paras. 87–88; Call Blocking Eighth Report and Order at paras. 9–14), and did not change in the Eighth Call Blocking Report and Order. There is no valid reason for a caller to originate a call from these numbers calls purporting to originate from these numbers are highly likely to be illegal.

Federal Communications Commission.
