

These reviews are not considered audits but are intended to be assistive in nature; aiding the Recipient in following good practices where appropriate and bringing them into compliance, if needed. A team of BSR participants is assembled to assess the Recipient's policies, procedures, and practices to determine whether, taken collectively, these administrative business systems used in managing the Facility meet NSF award expectations and comply with Federal regulations.

The BSR Guide is designed for use by both our customer community and NSF staff for guidance in executing these reviews. The BSR Guide defines the overall framework and structure and summarizes the details outlined in the internal operating guidelines and procedures used by BSR Participants to execute the review process.

Management principles and practices are specified for seven core functional areas (CFA) and are used by BSR participants in performing these evaluations. Roles and responsibilities of the NSF stakeholders involved in the process are outlined in the BSR Guide as well as the expectations of the Recipient.

This version of the Business Systems Guide aligns with the Uniform Guidance and the *NSF Research Infrastructure Guide*. This Guide will be updated periodically to reflect changes in requirements, policies and/or procedures. Award Recipients are expected to monitor and adopt the requirements and good practices included in the Guide.

The submission of Award Recipient and Project administrative business process and procedural documentation used in support of operations of the Major Facilities is part of the collection of information. This information is used to help NSF fulfill this responsibility in supporting merit-based research and education projects in all the scientific and engineering disciplines. The Foundation also has a continuing commitment to provide oversight on facilities through their full life cycle which must be balanced against monitoring its information collection so as to identify and address any excessive review and reporting burdens.

NSF has approximately twenty (20) Major Facilities in various stages of design, construction, operations, and divestment. The need for a BSR and review scope is based on NSF's internal annual Major Facility Portfolio Risk Assessment and the assessment of various risks factors.

Burden to the Public: The Foundation estimates that approximately one and half (1.5) Full Time Equivalent (FTEs)

are necessary for a major facility to respond to the requirements of a BSR; or 3,120 hours. With an average of four (4) BSRs conducted a year, this equates to roughly 12,480 public burden hours annually.

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Comment Request

AGENCY: National Science Foundation.

ACTION: Submission for OMB review; comment request.

SUMMARY: The National Science Foundation (NSF) has submitted the following information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1995. This is the second notice for public comment; the first was published in the **Federal Register**, and no comments were received. NSF is forwarding the proposed submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice.

DATES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314, or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including federal holidays).

Copies of the submission may be obtained by calling 703-292-7556. NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number, and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information

unless it displays a currently valid OMB control number.

SUPPLEMENTARY INFORMATION:

Title of Collection: Research Performance Progress Report.
OMB Approval Number: 3145-0221.
Expiration Date of Approval: July 30, 2022.

Type of Request: Intent to seek approval to extend an information collection for three years.

Use of the Information: NSF developed the RPPR as a service within *Research.gov*. The service provides a common portal for the research community to manage and submit annual project reports to the National Science Foundation (NSF) and to partner agencies. This service replaced NSF's annual and interim project reporting capabilities which resided in the FastLane System.

Complete information about NSF's implementation of the Research Performance Progress Report (RPPR) may be found at the following website: <http://www.nsf.gov/bfa/dias/policy/rppr/index.jsp>.

Burden on the Public: The Foundation estimates that an average of 6.6 hours is expended for each report submitted. An estimated 120,000 reports are expected during the course of one year for a total of 30,000 public burden hours annually.

Dated: July 25, 2022.

Suzanne H. Plimpton,
Reports Clearance Officer, National Science Foundation.

SECURITIES AND EXCHANGE COMMISSION

[SEC File No. 270-174, OMB Control No. 3235-0179]

Proposed Collection; Comment Request; Extension: Rule 31a-2

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of FOIA Services, 100 F Street NE, Washington, DC 20549-2736

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission (the "Commission") is soliciting comments on the collection of information summarized below. The Commission plans to submit this existing collection of information to the Office of Management and Budget ("OMB") for extension and approval.

Section 31(a)(1) of the Investment Company Act of 1940 (15 U.S.C. 80a-1 *et seq.*) (the "Act") requires registered investment companies ("funds") and certain underwriters, broker-dealers, investment advisers, and depositors to maintain and preserve records as prescribed by Commission rules. Rule 31a-1 (17 CFR 270.31a-1) under the Act specifies the books and records that each of these entities must maintain. Rule 31a-2 (17 CFR 270.31a-2) under the Act specifies the time periods that entities must retain certain books and records, including those required to be maintained under rule 31a-1.

The retention of records, as required by the rule, is necessary to ensure access to material business and financial information about funds and certain related entities. We periodically inspect

the operations of funds to ensure they are in compliance with the Act and regulations under the Act. Due to the limits on our resources, however, each fund may only be inspected at intervals of several years. In addition, the prosecution of persons who have engaged in certain violations of the federal securities laws may not be limited by timing restrictions. For these reasons, we often need information relating to events or transactions that occurred years ago. Without the requirement to preserve books, records, and other documents, our staff would have difficulty determining whether the fund was in compliance with the law in such areas as valuation of its portfolio securities, computation of the prices investors paid, and, when purchasing and selling fund shares, types and amounts of expenses the fund incurred, kinds of investments the fund purchased, actions of affiliated persons, or whether the fund had engaged in any illegal or fraudulent activities. As part of our examinations of funds, our staff also reviews the materials that directors consider in approving the advisory contract.

There are 2,754 funds currently operating as of December 31, 2021, all of which are required to comply with rule 31a-2. The Commission staff estimates that, on average, a fund spends 220.4 hours annually to comply with the rule. The Commission therefore estimates the total annual hour burden of the rule's and form's paperwork requirements to be 606,981.60 hours. In addition to the burden hours, the Commission staff estimates that the average yearly cost to each fund that is subject to rule 31a-2 is about \$40,577.95. The Commission estimates total annual cost is therefore about \$111.8 million.

Estimates of average burden hours and costs are made solely for purposes of the Paperwork Reduction Act and are not derived from a comprehensive or even representative survey or study of the costs of Commission rules and forms. Compliance with the collection of information requirements of the rule is mandatory. Responses to the disclosure requirements will not be kept confidential. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Written comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's
