SUPPLEMENTARY INFORMATION:**Background**

On December 9, 2003, the FAA published in the **Federal Register** a notice of proposed rulemaking to establish V-19 northeast of the Cincinnati, OH, VORTAC to reduce congestion on V-5 between Columbus, OH, and Cincinnati, OH, and to enhance the management of aircraft operations over the Cincinnati, OH, area (68 FR 68576). Interested parties were invited to participate in this rulemaking effort by submitting written comments on this proposal to the FAA. No comments were received in response to the proposal. With the exception of editorial changes, this amendment is the same as that proposed in the notice.

Domestic VOR Federal airways are published in paragraph 6010(a) of FAA Order 7400.9N dated September 1, 2005, and effective September 16, 2005, which is incorporated by reference in 14 CFR 71.1. The Federal airway listed in this document will be published subsequently in the order.

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR part 71) by establishing V-19 in the Cincinnati, OH, area. Specifically, this action establishes V-19 between Columbus, OH, and Cincinnati, OH, to the south of V-5 and to the north of the Buckeye Military Operations Area. The FAA is taking this action to reduce congestion on V-5 and to enhance the management of aircraft operations over the Cincinnati, OH, area.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is

certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
