SUPPLEMENTARY INFORMATION:

- I. Background on the Montana Program
- II. Description of the Proposed Amendment
- III. Public Comment Procedures
- IV. Procedural Determinations

I. Background on the Montana Program

Section 503(a) of the Act permits a State to assume primacy for the regulation of surface coal mining and reclamation operations on non-Federal and non-Indian lands within its borders by demonstrating that its State program includes, among other things, “a State law which provides for the regulation of surface coal mining and reclamation operations in accordance with the requirements of this Act * * *; and rules and regulations consistent with regulations issued by the Secretary pursuant to this Act.” See 30 U.S.C. 1253(a)(1) and (7). On the basis of these criteria, the Secretary of the Interior conditionally approved the Montana program on April 1, 1980. You can find background information on the Montana program, including the Secretary’s findings, the disposition of comments, and conditions of approval of the Montana program in the April 1, 1980, **Federal Register** (45 FR 21560). You can also find later actions concerning Montana’s program and program amendments at 30 CFR 926.15, 926.16, and 926.30.

II. Description of the Proposed Amendment

By letter dated July 20, 2011, Montana sent us a proposed amendment to its program (Administrative Record Docket ID No. OSM–2011–0012) under SMCRA (30 U.S.C. 1201 *et seq.*). Montana submitted the amendment to include changes made to the MSUMRA as a result of the 2011 Montana Legislature passage of Senate Bill 286 relating to coal prospecting.

Specifically, Montana proposes to amend the MSUMRA to modify the coal prospecting procedures to allow for a new type of coal prospecting permit when prospecting is conducted to determine the location, quantity, and quality of coal that is (1) outside an area designated as unsuitable, (2) does not remove more than 250 tons, and (3) does not substantially disturb the natural land surface. The effect of the modified procedures causes MSUMRA to have three tiers of prospecting regulation, rather than the currently approved two tiers. The full text of the program amendment is available for you to read at the locations listed above under **ADDRESSES**.

We announced receipt of the proposed amendment in the October 17, 2011, **Federal Register** (200 FR 64047; Administrative Record No. OSM 2011–

0012–0001), provided an opportunity for a public hearing or meeting on its substantive adequacy, and invited public comment on its adequacy. Because no one requested a public hearing or meeting, none was held. The public comment period ended on November 17, 2011. We received comments from the Mine Safety and Health Administration stating that it agreed with the proposed revisions. We did not receive any comments from the general public.

During our review of the amendment, we identified areas needing clarification at MSUMRA Section 82–4–226. We notified Montana of our concerns by letter dated November 22, 2011 (Administrative Record No. OSM–2011–0012–0005). Montana responded in a letter dated December 22, 2011, by submitting additional explanatory information (Administrative Record No. OSM–2011–0012–0006). Specifically, Montana clarified when prospecting operations would be regulated under proposed MSUMRA Section 82–4–226(7), and that prospecting operations conducted under proposed MSUMRA Sections 82–4–226(7)(b) and (8) would not be allowed to substantially disturb the natural land surface. Finally, Montana clarified that proposed MSUMRA Section 82–4–226(7) would be interpreted and implemented based upon legislative history and the rules of statutory construction so that when operations are permitted under MSUMRA Section 82–4–226(8), subsections (1) and (2) would not apply, but subsections (3) through (6) would apply.

III. Public Comment Procedures

Under the provisions of 30 CFR 732.17(h), we are seeking your comments on whether the submission satisfies the applicable program approval criteria of 30 CFR 732.15. If we approve the amendment, it will become part of the Montana program.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. We cannot ensure that comments received after the close of the comment period (see **DATES**) or sent to an address other than those listed above (see **ADDRESSES**) will be included in the

docket for this rulemaking and considered.

Electronic or Written Comments

If you submit written comments, they should be specific, confined to issues pertinent to the proposed regulations, and explain the reason for any recommended change(s). We would appreciate all comments relating to this specific issue, but those most useful and likely to influence decisions on the final rule will be those that either involve personal experience or include citations to and analysis of the Surface Mining Control and Reclamation Act of 1977, its legislative history, its implementing regulations, case law, other State or Federal laws and regulations, data, technical literature, or other relevant publications.

Public Hearing

If you wish to speak at the public hearing, contact the person listed under **FOR FURTHER INFORMATION CONTACT** by 4 p.m., m.s.t. on April 11, 2012. If you are disabled and need reasonable accommodations to attend a public hearing, contact the person listed under **FOR FURTHER INFORMATION CONTACT**. We will arrange the location and time of the hearing with those persons requesting the hearing. If no one requests an opportunity to speak, we will not hold the hearing.

To assist the transcriber and ensure an accurate record, we request, if possible, that each person who speaks at a public hearing provide us with a written copy of his or her comments. The public hearing will continue on the specified date until everyone scheduled to speak has been given an opportunity to be heard. If you are in the audience and have not been scheduled to speak and wish to do so, you will be allowed to speak after those who have been scheduled. We will end the hearing after everyone scheduled to speak and others present in the audience who wish to speak, have been heard.

Public Meeting

If there is only limited interest in participating in a public hearing, we may hold a public meeting rather than a public hearing. If you wish to meet with us to discuss the amendment, please request a meeting by contacting the person listed under **FOR FURTHER INFORMATION CONTACT**. All such meetings are open to the public and, if possible, we will post notices of meetings at the locations listed under **ADDRESSES**. We will make a written summary of each meeting a part of the administrative record.

VI. Procedural Determinations

Executive Order 12866—Regulatory Planning and Review

This rule is exempted from review by the Office of Management and Budget (OMB) under Executive Order 12866 (Regulatory Planning and Review).

Other Laws and Executive Orders Affecting Rulemaking

When a State submits a program amendment to OSM for review, our regulations at 30 CFR 732.17(h) require us to publish a notice in the **Federal Register** indicating receipt of the proposed amendment, its text or a summary of its terms, and an opportunity for public comment. We conclude our review of the proposed amendment after the close of the public comment period and determine whether the amendment should be approved, approved in part, or not approved. At that time, we will also make the determinations and certifications required by the various laws and executive orders governing the rulemaking process and include them in the final rule.
