Abstract: As required by the Clean Air Act, EPA has regulations establishing emission standards and other requirements for various classes of vehicles, engines, and evaporative emissions. These regulations require that compliance be demonstrated prior to EPA granting a “Certificate of Conformity.” EPA charges fees for administering this certification program. In 2004 the fees program was expanded to include non-road categories of vehicles and engines, such as several categories of marine engines, locomotives, non-road recreational vehicles, and many non-road compression-ignition and spark-ignition engines. Manufacturers and importers of covered vehicles, engines and components are required to pay the applicable certification fees prior to their certification applications being reviewed. Under section 208 of the Clean Air Act (42 U.S.C. 7542(c)) all

information, other than trade secret processes or methods, must be publicly available. Information about fee payments is treated as confidential information prior to certification.

Form Numbers: 3520–29.

Respondents/affected entities:

Manufacturers or importers of motor vehicles and engines.

Respondent's obligation to respond:

Required to obtain or retain a benefit (40 CFR part 1027).

Estimated number of respondents:

597 (total).

Frequency of response: Annually, On occasion.

Total estimated burden: 927 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$59,683 (per year), includes \$9,965 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a decrease of 586 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is due to an increase in the number of online fee forms from manufacturers.

Courtney Kerwin,

Director, Regulatory Support Division.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed settlement agreement; request for public comment.

SUMMARY: In accordance with section 113(g) of the Clean Air Act, as amended (“CAA” or the “Act”), notice is hereby given of a proposed settlement agreement to address a lawsuit filed by the Center for Biological Diversity, Association of Irrigated Residents, and Sierra Club (Plaintiffs), in the United States District Court for the Northern District of California: *Center For Biological Diversity et al. v. United States Environmental Protection Agency et al.* No. 4:16–cv–01946–SBA (N.D. Cal.). On April 14, 2016, Plaintiffs filed a complaint alleging that Gina McCarthy, in her official capacity as Administrator of the United States Environmental Protection Agency, and Jared Blumenfeld, in his official

capacity as Regional Administrator of the United States Environmental Protection Agency (collectively, “EPA”), failed to perform a nondiscretionary duty to grant or deny within 60 days a petition submitted by Plaintiffs on December 16, 2014, requesting that EPA object to an Authority to Construct/ Certificate of Conformity issued by the San Joaquin Valley Air Pollution Control District to the Alon USA—Bakersfield, California Refinery Facility. The proposed settlement agreement would establish two deadlines for EPA to take specified action.

DATES: Written comments on the proposed settlement agreement must be received by *November 21, 2016*.

ADDRESSES: Submit your comments, identified by Docket ID number EPA–HQ–OGC–2016–0613, online at www.regulations.gov. SUPPLEMENTARY INFORMATION:

I. Additional Information About the Proposed Settlement Agreement

The proposed settlement agreement would resolve a lawsuit filed by the Plaintiffs seeking to compel the Administrator to take actions under CAA section 505(b)(2). Under the terms

of the proposed settlement agreement, EPA would agree to sign its response granting or denying one specified section of the petition filed by Plaintiffs regarding the Alon USA—Bakersfield, California Refinery Facility on or before December 30, 2016. Additionally, EPA would agree to sign its response granting or denying two other specified sections of the petition filed by Plaintiffs regarding the Alon USA—Bakersfield, California Refinery Facility on or before July 31, 2016.

Under the terms of the proposed settlement agreement, EPA would expeditiously deliver notice of EPA's responses to the Office of the Federal Register for review and publication following signature of each response. In addition, the proposed settlement agreement sets out a framework for resolving any request for costs of litigation, including attorney fees.

For a period of thirty (30) days following the date of publication of this notice, the Agency will accept written comments relating to the proposed settlement agreement from persons who are not named as parties or intervenors to the litigation in question. EPA or the Department of Justice may withdraw or withhold consent to the proposed settlement agreement if the comments disclose facts or considerations that indicate that such agreement is inappropriate, improper, inadequate, or inconsistent with the requirements of the Act. Unless EPA or the Department of Justice determines that consent to this settlement agreement should be withdrawn, the terms of the settlement agreement will be affirmed.
