

- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

- Is not subject to requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and

- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this proposed rulemaking, proposing to approve Maryland's portion of the Philadelphia nonattainment area base year inventory for the 2015 ozone NAAQS, does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the State, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Dolphin and Wahoo Fishery of the Atlantic; Amendment 10

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; request for comments.

SUMMARY: NMFS proposes regulations to implement Amendment 10 to the Fishery Management Plan (FMP) for the Dolphin and Wahoo Fishery of the Atlantic (Dolphin and Wahoo FMP), as prepared and submitted by the South Atlantic Fishery Management Council (Council). This proposed rule would revise the annual catch limits (ACLs), accountability measures (AMs), and additional management measures for dolphin and wahoo. The additional management measures would address commercial trip limits, authorized fishing gear, the operator permit (card) requirement for dolphin and wahoo, and the recreational vessel limit for dolphin. Amendment 10 would also revise the acceptable biological catch (ABC) and sector allocations for both dolphin and wahoo. The purpose of this proposed rule and Amendment 10 is to base conservation and management measures for dolphin and wahoo on the best scientific information available and increase net benefits to the fishery.
