

Obligation to Respond: To ensure that licensees timely construct systems that either provide coverage to minimum geographic portions of their licensed areas, that provide service to minimum percentages of the population of those areas, or that, in the alternative, provide service that is sound, favorable, and substantially above a level of mediocre service that would barely warrant renewal.

Total Annual Burden: 19 hours.

Annual Cost Burden: \$10,725.

Privacy Act Impact Assessment: Yes.

Nature and Extent of Confidentiality:

There are no requests of a sensitive nature considered, or those considered a private matter, being sought from the applicants on this collection.

Needs and Uses: Section 24.103 requires that certain narrowband PCS licensees notify Commission at specific benchmarks that they are in compliance with applicable construction requirements in order to ensure that these licensees quickly construct their systems and that, with those systems, they provide, within their respective licensed areas: coverage to minimum geographic areas, service to minimum percentages of the population, or "substantial service" within ten years after license grant. The Commission is not currently collecting information from narrowband PCS licensees under Section 24.103 and does not expect to do so during the three year period for which it seeks extension of its current collection authority under that section. However, following the future auction of new narrowband PCS licenses, the reporting and recordkeeping requirements under this section will be used to satisfy the Commission's rule that such licensees demonstrate compliance with these construction requirements by the 5 and 10 year benchmarks established upon the grant date of each license. Without this information, the Commission would not be able to carry out its statutory responsibilities.
