Notification to Importers

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during these review periods. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This administrative review and this notice are published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

issues will be considered. Recruitment information is available on the International Trade Administration Web site at <http://www.ita.doc.gov/itac>.

SUPPLEMENTARY INFORMATION:

Background

In section 135 of the 1974 Trade Act, as amended (19 U.S.C. 2155), Congress established a private-sector trade advisory committee system to ensure that U.S. trade policy and trade negotiation objectives adequately reflect U.S. commercial and economic interests. Section 135(a)(1) of the 1974 Trade Act directs the President to "seek information and advice from representative elements of the private sector and the non-Federal governmental sector with respect to:

(A) Negotiating objectives and bargaining positions before entering into a trade agreement under [title I of the 1974 Trade Act and section 2103 of the Bipartisan Trade Promotion Authority Act of 2002];

(B) the operation of any trade agreement once entered into, including preparation for dispute settlement panel proceedings to which the United States is a party; and

(C) other matters arising in connection with the development, implementation, and administration of the trade policy of the United States * * *."

Section 135(c)(2) of the 1974 Trade Act provides—

"(2) The President shall establish such sectoral or functional advisory committees as may be appropriate. Such committees shall, insofar as is practicable, be representative of all industry, labor, agricultural, or service interests (including small business interests) in the sector or functional areas concerned. In organizing such committees, the United States Trade Representative and the Secretaries of Commerce, Labor, Agriculture, the Treasury, or other executive departments, as appropriate, shall—

(A) consult with interested private organizations; and

(B) take into account such factors as—

(i) patterns of actual and potential competition between United States industry and agriculture and foreign enterprise in international trade,

(ii) the character of the non-tariff barriers and other distortions affecting such competition,

(iii) the necessity for reasonable limits on the number of such advisory committees,

(iv) the necessity that each committee be reasonably limited in size, and

(v) in the case of each sectoral committee, that the product lines covered by each committee be reasonably related."

Pursuant to this provision, Commerce and USTR have established and co-chair sixteen Industry Trade Advisory Committees (ITACs), plus an ITAC Committee of Chairs. ITACs provide information and advice that assists the USTR to develop U.S. trade policy and negotiating positions for specific industry sectors. ITAC members serve without compensation and are responsible for all expenses incurred in attending ITAC meetings. For additional information regarding ITAC functions and members, and general qualifications for membership, visit the ITAC Web site at <http://www.ita.doc.gov/itac>.

Commerce and USTR are now soliciting nominations of representatives of the public health and health care community to serve on ITAC 3 and ITAC 15. Nominations will be considered in light of the eligibility requirements and selection criteria set forth below.

Eligibility

Eligibility to serve as a public health or health care community representative is limited to U.S. citizens who are not full-time employees of a governmental entity, who represent a U.S. entity that is an organization in the public health and health care community and who are not registered with the Department of Justice under the Foreign Agents Registration Act. For purposes of the preceding sentence, a "U.S. entity" is an organization incorporated in the United States (or, if unincorporated, having its headquarters in the United States):

(1) That is controlled by U.S. citizens or by another U.S. entity. An entity is not a U.S. entity if more than 50 percent of its Board of Directors or membership is made up of non-U.S. citizens. If the nominee is to represent an organization more than 10 percent of whose Board of Directors or membership is made up of non-U.S. citizens, or non-U.S. entities, the nominee must demonstrate at the time of nomination that this non-U.S. interest does not constitute control and will not adversely affect his or her ability to serve as a trade advisor to the United States; and

(2) at least 50 percent of whose annual revenue is attributable to non-governmental, U.S. sources.

Selection Criteria

Commerce and USTR will consider nominations of public health and health care community representatives eligible for appointment to ITAC 3 and ITAC 15 in light of the following criteria:

(1) The organization to be represented has demonstrated an interest in health issues relevant to the work of the ITAC.

(2) The nominee has demonstrated a personal interest and expertise in health issues relevant to the work of the ITAC, and ability to work with governmental officials and industry representatives to reach consensus on complex health and international trade issues affecting the relevant industry sector.

(3) Preference will be accorded nominees who also demonstrate knowledge of and familiarity with the relevant industry sector, as well as with international trade matters, including trade policy development, relevant to that sector.

Public health and health care community representatives selected for appointment to an ITAC will be required to have a security clearance.

Application Procedures

To begin the nomination process, please send (1) sponsor letter (must be on organization's letterhead); (2) resume; and (3) organization profile to Ingrid V. Mitchem, Director, Industry Trade Advisory Center, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Room 4043, Washington, DC 20230. Please indicate in your letter the ITAC or ITACs to which you wish to be appointed.

Dated: December 13, 2005.

J. Marc Chittum,

Designated Federal Officer.

SUPPLEMENTARY INFORMATION: NMFS is charged with the recovery of Pacific salmon and steelhead species listed under the ESA. The recovery planning process is guided by the statutory language of section 4(f) of the ESA and NMFS policies. Recovery is the use of all methods and procedures which are necessary to bring any endangered species or threatened species to the point at which the measures provided pursuant to the ESA are no longer necessary. The ESA specifies that recovery plans must include: (1) a description of management actions as may be necessary to achieve the plan's goals for the conservation and survival of the species; (2) objective, measurable criteria which, when met, would result in the species being removed from the list; and (3) estimates of time and costs required to achieve the plan's goal and

the intermediate steps towards that goal. Section 4(f) of the ESA, as amended in 1988, requires that public notice and an opportunity for public review and comment be provided during recovery plan development. NMFS is hereby soliciting relevant information on CCC coho salmon ESU populations and their freshwater/marine habitats.

NMFS will work closely with the California Department of Fish and Game to integrate, where appropriate, the recently developed and State-approved February 2004 Recovery Strategy for California Coho Salmon with the Federal Recovery Plan. Workshops during recovery plan development will be noticed across the range of the CCC coho salmon ESU and, upon completion, the draft Recovery Plan will be available for public review and comment through publication in the **Federal Register**. NMFS requests relevant information from the public that should be considered by NMFS during preparation of the draft recovery plan.

Authority

The authority for this action is section 4(f) of the ESA.
