SUPPLEMENTARY INFORMATION: To implement section 1233 of the Energy Policy Act of 2005 (EPA 2005) (which added new section 217 to the Federal Power Act (FPA)), the Commission requires each transmission organization that is a public utility with one or more organized electricity markets to make available long-term firm transmission rights that satisfy each of the Commission's guidelines. The reporting requirements of FERC-732,¹ ("Electric Rate Schedules and Tariffs: Long-Term Firm Transmission Rights in Organized Electricity Markets," OMB Control Number 1902-0245) pertain to these long-term transmission rights and are described in 18 CFR part 42.

The FERC-732 regulations require that transmission organizations that are public utilities with one or more organized electricity markets either: (a) File tariff sheets making long-term firm transmission rights available that are consistent with each of the guidelines established by FERC, or (b) file an explanation describing how their existing tariffs already provide long-term firm transmission rights that are consistent with the guidelines. In addition, each transmission organization is required to make its transmission planning and expansion procedures and plans publicly available.

FERC-732 enables the Commission to exercise its wholesale electric rate and electric power transmission oversight and enforcement responsibilities in

¹ This information collection has been labeled "FERC-913", "FERC-913/516", and "FERC-913(Temporary)" with a goal of incorporating it later into FERC-516 (OMB Control No. 1902-0096). In addition, in Order No. 681 (in Docket No. RM06-8, issued 7/20/06), the burden was listed as part of FERC-516. OMB approved the new reporting requirements on 1/24/07 and assigned OMB Control No. 1902-0236 (rather than including it in FERC-516).

On 9/28/07 (in ICR Nos. 200610-1902-002 and 200709-1902-008), OMB approved transfer from OMB Control No. 1902-0236 to OMB Control No. 1902-0245. However, OMB Control No. 1902-0245 does not indicate a FERC collection number. To eliminate some of the confusion, we have assigned these requirements a new FERC collection number, FERC-732. The new collection number does not affect the regulatory requirements or burden.

In the future, FERC plans to incorporate the FERC-732 reporting requirements and related burden into the FERC-516. However, FERC-516 is currently the subject of OMB review, so the Commission will track these requirements (and the related burden hours) separately under FERC-732. FERC-516 is not a subject of this Notice.
