

Profiles (ESPs), the Economic Stock assessment and Fishery Evaluation (SAFE), Essential Fish Habitat (EFH), VAST applications, survey loss uncertainty and survey prioritization.

Wednesday, September 9, 2020

The BSAI Groundfish Plan Team will review stock assessment updates and reports on EBS pollock, BSAI Pacific cod and the Northern Bering Sea Pacific cod tagging project, Blackspotted/Rougheye rockfish, Northern rock sole, and Yellowfin sole.

Thursday, September 10, 2020

The GOA Groundfish Plan Team will review stock assessment updates and reports on GOA pollock, Pacific cod, Pacific Ocean perch, and survey optimization. The agenda is subject to change, and the latest version will be posted at <https://meetings.npfmc.org/Meeting/Details/1563> prior to the meeting, along with meeting materials.

Connection Information

You can attend the meeting online using a computer, tablet, or smart phone; or by phone only. Connection information will be posted online at: <https://meetings.npfmc.org/Meeting/Details/1563>.

Public Comment

Public comment letters should be submitted electronically to <https://meetings.npfmc.org/Meeting/Details/1563>.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests should be directed to Shannon Gleason at (907) 903–3107 at least 7 working days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: August 18, 2020.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648–XA369]

Fisheries of the South Atlantic; Southeast Data, Assessment, and Review (SEDAR); Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of scheduled SEDAR 73 South Atlantic Red Snapper Data Webinar.

SUMMARY: The SEDAR 73 assessment of the South Atlantic stock of Red Snapper will consist of a Data webinar, an in-person workshop, and a series of assessment webinars.

DATES: The SEDAR 73 South Atlantic Red Snapper Data Webinar has been scheduled for Wednesday September 9, 2020, from 9 a.m. to 12 p.m. EDT.

ADDRESSES:

Meeting address: The meeting will be held via webinar. The webinar is open to members of the public. Registration is available online at: <https://attendee.gotowebinar.com/register/3996526164054126862>.

SEDAR address: South Atlantic Fishery Management Council, 4055 Faber Place Drive, Suite 201, N. Charleston, SC 29405; www.sedarweb.org.

FOR FURTHER INFORMATION CONTACT:

Kathleen Howington, SEDAR Coordinator, 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405; phone: (843) 573–4373; email: Kathleen.Howington@safmc.net.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions, have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-step process including: (1) Data Workshop; (2) Assessment Process utilizing webinars; and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office,

Highly Migratory Species Management Division, and Southeast Fisheries Science Center. Participants include: Data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion at the SEDAR 73 South Atlantic Red Snapper Data Webinar are as follows:

- Identify and discuss data issues

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

This meeting is accessible to people with disabilities. Requests for auxiliary aids should be directed to the South Atlantic Fishery Management Council office (see **ADDRESSES**) at least 5 business days prior to the meeting.

Note: The times and sequence specified in this agenda are subject to change.
