Department of the Army; Corps of Engineers

Intent To Prepare a Joint Environmental Impact Statement and Environmental Impact Report for the Sacramento and San Joaquin River Basins Comprehensive Study, Hamilton City Flood Damage Reduction and Ecosystem Restoration, Glenn County, CA

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of intent.

SUMMARY: A combined Feasibility Report and joint Environmental Impact Statement/Environmental Impact Report (EIS/EIR) will be prepared to satisfy the requirements of the National Environmental Policy Act and the California Environmental Quality Act. The U.S. Army Corps of Engineers (Corps), Sacramento District, will serve as the Federal lead agency for the EIS with The Reclamation Board of the State of California (the Board), the non-federal sponsor, serving as the State lead agency for the EIR. The combined Feasibility Report and joint EIS/EIR will evaluate the environmental effects of a potential flood damage reduction and ecosystem restoration project at Hamilton City. The Hamilton City Flood Damage Reduction and Ecosystem Restoration is the first site-specific evaluation to be initiated as a result of the Sacramento and San Joaquin River Basins Comprehensive Study conducted by the Corps and the Board. Concurrently with the release of this notice of intent (NOI), the Board is issuing a notice of preparation (NOP) to initiate the CEQA process.

Scoping and public involvement activities were conducted under the original NOI issued for the Comprehensive Study. A series of scoping and outreach meetings were held in February through May 1998, November through December 1998, February 1999, June 1999, October through November 2001, and August through September 2002. Development of the EIS/EIR for the Comprehensive Study was at a programmatic level with the preliminary site-specific evaluation for Hamilton City Flood Damage Reduction and Ecosystem Restoration packaged as an attachment to the main programmatic document. The Comprehensive Study has since discontinued the environmental documentation effort and therefore this NOI is being submitted to establish that the Feasibility Report and EIS/EIR for Hamilton City Flood Damage Reduction
