SUPPLEMENTARY INFORMATION:

I. Abstract

The NASA Contractor Financial Management Reporting System is the basic financial medium for contractor reporting of estimated and incurred costs, providing essential data for projecting costs and hours to ensure that contractor performance is realistically planned and supported by dollar and labor resources. The data provided by these reports is an integral part of the Agency’s accrual accounting and cost-based budgeting system. Respondents are reimbursed for associated cost to provide the information, per their negotiated contract price and associated terms of the contract. There are no “total capital and start-up” or “total operation and maintenance and purchase of services” costs associated since NASA policy requires that data reported is generated from the contractors’ existing system. The contractors’ internal management system shall be relied upon to the maximum extent possible.

II. Methods of Collection

NASA collects this information electronically and that is the preferred manner, however information may also be collected via mail or fax.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Science Mission Directorate (SMD) within NASA is undertaking an Inclusion, Diversity, Equity, and Accessibility (IDEA) change effort. SMD seeks to advance these IDEA principles in all SMD programs and activities. This survey will be used as an evidence-building tool baselining SMD staff (civil servants and contractors) views on the SMD cultural climate. The survey will then be periodically (approximately annually) administered to determine whether cultural indicators are improving as IDEA efforts are implemented. Data obtained is intended for SMD internal use only and will not be publicly released. Data will be used to inform and substantiate IDEA strategy, initiatives, and design. This intelligence will be laser-focused on improving SMD’s internal environment. This survey will be open to both contractors and civil servants because contractors are integral to and embedded within the SMD workforce. No other data collection mechanism exists to obtain opinions from the contractor portion of the workforce on this topic. The survey will be voluntary and anonymous (the identity of survey respondents will not be collected).
