

DATES: Comments on this information collection must be submitted on or before May 11, 2015.

ADDRESSES: Mail comments to the Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for the National Endowment for the Humanities, Office of Management and Budget, Room 10235, Washington, DC 20503; (202) 395-7316.

FOR FURTHER INFORMATION CONTACT: Mr. Joel Schwartz, Chief Guidelines Officer, 400 7th Street SW., Washington, DC 20506; (202) 606-8473; jschwartz@neh.gov.

SUPPLEMENTARY INFORMATION: The Office of Management and Budget (OMB) is particularly interested in comments which: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

Agency: National Endowment for the Humanities.

Title of Proposal: Generic Clearance Authority for the National Endowment for the Humanities.

OMB Number: 3136-0134.

Frequency of Collection: On occasion.

Affected Public: Applicants to NEH grant programs, reviewers of NEH grant applications, and NEH grantees.

Total Respondents: 7,074

Average Time per Response: varied according to type of information collection.

Estimated Total Burden Hours: 67,105 hours.

Total Annualized capital/startup costs: 0.

Total annual costs (operating/maintaining systems or purchasing services): 0.

Description: This submission requests approval from OMB for a three year extension of NEH's currently approved generic clearance authority for all NEH information collections other than one-time evaluations, questionnaires and surveys. Generic clearance authority would include approval of forms and

instructions for application to NEH grant programs, reporting forms for NEH grantees, panelists and reviewers and for program evaluation purposes.

Copies of this ICR, with applicable supporting documentation, may be obtained by calling Joel Schwartz at (202-606-8473) or may be requested by email to jschwartz@neh.gov.

Dated: April 3, 2015.

Margaret F. Plympton,
Deputy Chairman.

BILLING CODE 7536-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-295 and 50-304; NRC-2015-0087]

Zion Solutions, LLC; Zion Nuclear Power Station, Unit Nos. 1 and 2

AGENCY: Nuclear Regulatory Commission.

ACTION: Environmental assessment and finding of no significant impact; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing an environmental assessment and finding of no significant impact regarding exemptions from specific emergency planning requirements for license nos. DPR-39 and DPR-48, issued to ZionSolutions, LLC, for the Zion Nuclear Power Station, Units 1 and 2.

DATES: The environmental assessment and finding of no significant impact referenced in this document is available on April 9, 2015.

ADDRESSES: Please refer to Docket ID NRC-2015-0087 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

- Federal Rulemaking Web site: Go to <http://www.regulations.gov> and search for Docket ID NRC-2015-0087. Address questions about NRC dockets to Carol Gallagher; telephone: 301-415-3463; email: Carol.Gallagher@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- NRC's Agencywide Documents Access and Management System (ADAMS): You may obtain publicly available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "ADAMS Public Documents" and then

select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. The ADAMS accession number for each document referenced in this document (if that document is available in ADAMS) is provided the first time that a document is referenced.

- NRC's PDR: You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

FOR FURTHER INFORMATION CONTACT: John Hickman, Division of Decommissioning, Uranium Recovery, and Waste Programs, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Telephone: 301-415-3017; email: John.Hickman@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC is considering issuance of exemptions from specific emergency planning (EP) requirements of part 50 of Title 10 of the Code of Federal Regulations (10 CFR) for license nos. DPR-39 and DPR-48, issued to ZionSolutions, LLC (ZS, the licensee), for the Zion Nuclear Power Station (ZNPS), Units 1 and 2. Therefore, as required by 10 CFR 51.21, the NRC performed an environmental assessment. Based on the results of the environmental assessment that follows, the NRC has determined not to prepare an environmental impact statement for the exemptions, and is issuing a finding of no significant impact.

On November 23, 2011, the NRC issued a Final Rule modifying or adding EP requirements in § 50.47, § 50.54, and appendix E of 10 CFR part 50 (76 **Federal Register** (FR) 72560). The EP Final Rule was effective on December 23, 2011, with specific implementation dates for each of the rule changes, varying from the effective date of the Final Rule through December 31, 2015. The EP Final Rule codified certain voluntary protective measures contained in NRC Bulletin 2005-02, "Emergency Preparedness and Response Actions for Security-Based Events," and generically applicable requirements similar to those previously imposed by NRC Order EA-02-026, "Order for Interim Safeguards and Security Compensatory Measures," dated February 25, 2002. In addition, the EP Final Rule amended other licensee emergency plan requirements to: (1) Enhance the ability of licensees in

preparing and in taking certain protective actions in the event of a radiological emergency; (2) address, in part, security issues identified after the terrorist events of September 11, 2001; (3) clarify regulations to effect consistent emergency plan implementation among licensees; and (4) modify certain EP requirements to be more effective and efficient. However, the EP Final Rule was only an enhancement to the NRC's regulations and was not necessary for adequate protection. On page 72563 of the **Federal Register** notice for the EP Final Rule, the Commission "determined that the existing regulatory structure ensures adequate protection of public health and safety and common defense and security."

II. Environmental Assessment

Description of Proposed Action

The proposed action would exempt ZNPS, a 10 CFR part 50 licensee, from certain 10 CFR part 50 EP requirements because ZNPS is a permanently shut-down nuclear facility.

The proposed action is in accordance with the licensee's application dated June 20, 2012, (ADAMS Accession No. ML12173A316).

Need for Proposed Action

ZNPS was shut down on February 21, 1997, and is currently in a permanently shut-down and defueled condition. In a letter dated May 4, 1998, the NRC acknowledged that pursuant to 10 CFR 50.82(a)(2), the 10 CFR part 50 licenses for ZNPS, Units 1 and 2 no longer authorize operation of the reactors, or emplacement or retention of fuel in the reactor vessels. Active decommissioning is currently underway.

The licensee claims that the proposed action is needed because the Final Rule imposed requirements on ZNPS that are not necessary to meet the underlying purpose of the regulations in view of the greatly reduced offsite radiological consequences associated with the current plant status as permanently shut down. The EP program at this facility met the EP requirements in 10 CFR part 50 that were in effect before December 23, 2011, subject to any license amendments or exemptions modifying the EP requirements for the licensee. Thus, compliance with the EP requirements in effect before the effective date of the EP Final Rule demonstrated reasonable assurance that adequate protective measures could be taken in the event of a radiological emergency.

Environmental Impacts of the Proposed Action

The NRC staff evaluated the environmental impacts of the proposed action and concludes that exempting the facility from the emergency planning requirements will not have any adverse environmental impacts. With respect to radiological impacts, the NRC has determined that no credible events at ZNPS would result in doses to the public beyond the owner controlled area boundary that would exceed the U.S. Environmental Protection Agency Protective Actions Guides at the site boundary. The proposed action is wholly procedural and administrative in nature. As such, the proposed action will not: Significantly increase the probability or consequences of radiological accidents, result in any changes to the types of effluents that may be released offsite, and result in any significant increase in occupational or public radiation exposure. Therefore, there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential non-radiological impacts, the proposed action does not involve any construction activities, renovation of buildings or structures, ground disturbing activities or other alteration to land. The proposed action will not change the site activities and therefore will not result in any changes to the workforce or vehicular traffic. Furthermore, the proposed action is not a type of activity that has the potential to cause effects on historic properties or cultural resources, including traditional cultural properties. In addition the proposed action will not result in any change to non-radiological plant effluents and thus, will have no impact on either air or water quality. As the proposed action is wholly procedural and administrative in nature, the NRC staff has determined that the proposed action will have no effect on listed species or critical habitat. Therefore, there are no significant non-radiological environmental impacts associated with the proposed action.

Accordingly, the NRC staff concludes that there are no significant environmental impacts associated with the proposed action.

Environmental Impacts of the Alternatives to the Proposed Action

As an alternative to the proposed action, the NRC staff considered denial of the proposed action (*i.e.*, the "no-action" alternative). Denial of the exemption request would result in no change in current environmental

impacts because there will be no construction or major renovation of any buildings or structures, nor any associated ground disturbing activities. Thus the environmental impacts of the proposed action and no-action alternative are similar. Therefore, the no-action alternative is not further considered.

Conclusion

The NRC staff has concluded that the proposed action will not significantly impact the quality of the human environment, and that the proposed action is the preferred alternative.

Agencies and Persons Consulted

The NRC contacted the Illinois Emergency Management Agency concerning this request. There were no comments, concerns or objections from the State official.

III. Finding of No Significant Impact

The NRC staff has prepared this EA as part of its review of the proposed action. On the basis of this EA, the NRC finds that there are no significant environmental impacts from the proposed action, and that preparation of an environmental impact statement is not warranted. Accordingly, the NRC has determined that a Finding of No Significant Impact (FONSI) is appropriate. In accordance with 10 CFR 51.32(a)(4), this FONSI incorporates the EA set forth in this notice by reference.

Dated at Rockville, Maryland, this 30th day of March 2015.

For the Nuclear Regulatory Commission.

Larry W. Camper,

Director, Division of Decommissioning, Uranium Recovery, and Waste Programs, Office of Nuclear Material Safety and Safeguards.
