Proposed Project: Assessment of the Impact of the National Practitioner Data Bank—NEW

Under the Health Resources and Services Administration (HRSA), Bureau of Health Professions (BHP), the Division of Quality Assurance (DQA) is planning to conduct a survey to obtain information on the degree of user satisfaction with the National Practitioner Data Bank's (NPDB) querying and reporting processes, how users believe these processes can be improved, and how users perceive the usefulness of information they obtained from the NPDB for licensing and credentialing of health care entities, e.g. managed care organizations, State licensing boards for physicians and dentists, and professional societies. The study will also identify and survey non user entities. The information obtained in this study will be interpreted in relation to similar information from previous studies conducted by the DQA and the Office of the Inspector General.

The estimated response burden is as follows:

Questionnaire version	Number of respondents	Responses per respondent	Total responses	Hours per response	Total burden hours
Users Survey					
Reporting:					
Hospital	1031	1	1031	.25	257.8
Group Practice	210	1	210	.25	52.5
HMOs	161	1	161	.25	40.3
