

Information Collection Request Title: Black Lung Clinics Program Performance Measures, OMB No. 0915–0292—Revision.

Abstract: The Black Lung Clinics Program (BLCP) is authorized under Sec. 427(a) of the Federal Mine Safety and Health Act of 1977 (30 U.S.C. 937(a)) and accompanying regulations (42 CFR part 55a). The purpose of the BLCP is to reduce the morbidity and mortality associated with occupationally related coal mine dust lung disease through the screening, diagnosis, and treatment of active, inactive, retired, and/or disabled coal miners. HRSA currently collects information about BLCP awards using an OMB-approved set of performance measures and seeks to extend the approved collection. There are no proposed changes to the performance measures; however, there is a 45-hour decrease in estimated burden hours due to the streamlining of the data collection process, allowing awardees/respondents to be more efficient in collecting and submitting the data for this information collection. Collecting this data provides

HRSA with information on how well each awardee is meeting the needs of these miners in their communities.

A 60-day notice was published in the **Federal Register** on June 21, 2024, vol. 89, No. 120; pp. 52065. There were no public comments.

Need and Proposed Use of the Information: Data from the annual report provides quantitative information about the clinics, specifically: (1) the characteristics of the patients they serve (gender, age, disability level, occupation type); (2) the characteristics of services provided (medical encounters, non-medical encounters, benefits counseling, and outreach); and (3) the number of patients served. These programmatic performance measures enable HRSA to provide data required by Congress under the Government Performance and Results Act of 1993. It also ensures that funds are effectively used to provide services that meet the target population’s needs. HRSA does not plan to make any changes to the performance measures at this time. The estimated average burden per response has decreased because the data

collection process has been streamlined and enabled awardees/respondents to be more efficient in collecting and submitting the data for this information collection.

Likely Respondents: Respondents will be BLCP award recipients.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose, or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the following table:

TOTAL ESTIMATED ANNUALIZED BURDEN HOURS

Form name	Number of respondents	Number of responses per respondent	Total responses	Average burden per response (in hours)	Total burden hours
Black Lung Clinics Program Measures	15	1	15	7	105
Total	15	15	105

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Submission for OMB Review; 30-Day Comment Request; National Institutes of Health—Fellow Forms

AGENCY: National Institutes of Health, HHS.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, the National Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request for review and approval of the information collection listed below.

DATES: Comments regarding this information collection are best assured of having their full effect if received within 30 days of the date of this publication.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, contact: Dr. Patricia Wagner, Program Analyst, Office of Intramural Research (OIR), Office of the Director (OD), National Institutes of

Health (NIH); 2 Center Drive: Building 2/Room 2E06; Bethesda, Maryland 20892 or call non-toll-free number 240-476-3619 or email your request, including your address to: wagnerpa@od.nih.gov.

SUPPLEMENTARY INFORMATION: This proposed information collection was previously published in the **Federal Register** on July 30, 2024, page 61130 (89 FR 61130) and allowed 60 days for public comment. One public comment was received. The purpose of this notice is to allow an additional 30 days for public comment. The Office of the Director, National Institutes of Health, may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid Office of Management and Budget (OMB) control number.

In compliance with Section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the National Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request for review and approval of the information collection listed below.

Proposed Collection: National Institutes of Health (NIH)—Fellow Forms, 0925-New—expiration date, Office of Intramural Research (OIR), Office of the Director (OD), National Institutes of Health (NIH).

Need and Use of Information Collection: The NIH Intramural Research Program (NIH IRP) administers a variety of programs, initiatives, and activities to train future biomedical scientists. Fellows participating in the NIH IRP are provided financial assistance through one of the following appointment mechanisms: Intramural Research Training Award (IRTA), Cancer Research Training Award (CRTA), and Visiting Fellow (VF). Recently, NIH IRP fellows voted to form a union. To comply with federal regulations governing engagement with a union, the NIH IRP created a series of collection forms.

OMB approval is requested for 3 years. There are no costs to respondents other than their time. The total estimated annualized burden hours are 135.
