FEDERAL MARITIME COMMISSION

[Docket No. 05-02]

SAT International Corporation v. Great White Fleet (US), Ltd.; Notice of Filing of Complaint and Assignment

Notice is given that a complaint has
been filed with the Federal Maritime
Commission ("Commission") by SAT
International Corporation ("SAT" or
"Complainant") against Great White
Fleet (US), Ltd. ("Great White" or
"Respondent"). Great White, acting as a
VOCC, transported cargo for SAT from
the United States to Guatemala.
Complainant contends that Respondent
violated section 10(b)(4)(E) of the
Shipping Act of 1984, 46 U.S.C. app.
§ 1709(b)(4)(E), by engaging in unfair
and unjustly discriminatory practices
relating to the adjustment and
settlement of claims. Complainant also
contends that Respondent violated
section 10(d)(1) of the Shipping Act of
1984, 46 U.S.C. app. § 1709(d)(1), by
failing to establish, observe, and enforce
just and reasonable regulations and
practices relating to the handling of
SAT's goods. Complainant claims that it
has suffered damages in the amount of
at least \$69,520. Complainant seeks an
order directing Respondent to cease and
desist from such unlawful activities and
compelling Respondent to make
reparations to SAT in an amount to be
proved at an administrative hearing,
plus interest, costs, and reasonable
attorneys' fees.

This proceeding has been assigned to
the Office of Administrative Law Judges.
Hearing in this matter, if any is held,

shall commence within the time
limitations prescribed in 46 CFR 502.61,
and only after consideration has been
given by the parties and the presiding
officer to the use of alternative forms of
dispute resolution. The hearing shall
include oral testimony and cross-
examination in the discretion of the
presiding officer only upon proper
showing that there are genuine issues of
material fact that cannot be resolved on
the basis of sworn statements, affidavits,
depositions, or other documents or that
the nature of the matter in issue is such
that an oral hearing and cross-
examination are necessary for the
development of an adequate record.
Pursuant to the further terms of 46 CFR
502.61, the initial decision of the
presiding officer in this proceeding shall
be issued by March 9, 2006 and the final
decision of the Commission shall be
issued by July 7, 2006.

Bryant L. VanBrakle,

Secretary.

Proposed Project

Ecology of Bats in Households: A
Survey for Assessing Knowledge,
Attitudes, and Health Risks—New—
National Center for Infectious Diseases
(NCID), Centers for Disease Control and
Prevention (CDC).

Bats are associated with many
different kinds of infectious diseases
that may be pathogenic to humans.
Anthropogenic change from urban

sprawl provides new roosts for bats in homes and buildings while reducing available natural roosts and putting humans in more frequent contact with bats. The largest public health concern with respect to bat exposure is the transmission of rabies virus—about 75% of human rabies deaths are from bat-associated rabies variants. The current U.S. guidelines for animal rabies prevention and control recommend that bats be excluded from houses and adjacent structures to prevent direct association with humans. While direct association with bats is certainly a risk factor for rabies transmission, little is known about the effects of indirect association with bats and potential adverse health effects. This is of public

health concern because many organizations actually promote interactions between bats and humans, without consideration of public health consequences.

The questionnaire will establish bat exposure history, general personal health history including frequency of post-exposure prophylaxis for rabies and knowledge and attitudes pertaining to bat roosts. The Colorado State University/United States Geological Survey (USGS) study provides both a background for bat and rabies virus ecology in the Fort Collins area, and the ability of conservation and health issues to be relayed to the public.

We will evaluate health outcomes among household members by

administering a survey focused on frequency and nature of hospital/clinic visits, frequency of bat exposure, and frequency of post-exposure prophylaxis (PEP) for rabies.

The list of households with roosts is provided by Colorado State University bat researchers, identified through radio-tagging of bats. We plan to improve the knowledge of the ecology of bats and associated rabies transmission by assimilating rabies prevalence data in a bat population with data regarding the roost ecology and bat/human interaction ecology in a rapidly sprawling suburban area, Ft. Collins, Colorado. There is no cost to the respondents other than their time. The total annualized burden hours are 178.

ANNUALIZED BURDEN TABLE

Respondents	Number of respondents	Number of responses/re-spondent	Average burden/response (in hours)
Households with Bats (n=45)	81	1	30/60
Households without Bats (n=153)	275	1	30/60

Dated: March 14, 2005.

Acting Reports Clearance Officer, Centers for Disease Control and Prevention.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

General Notice.

AGENCY: Health Resources and Services Administration, HHS.

ACTION: General notice.

Background

This notice supplements the summer 2004 HRSA Preview which announced the availability of fiscal year (FY) 2005 funding for new and competing continuation applications for Healthy Start. Healthy Start, authorized under section 330H of the Public Health Service Act, strengthens communities to effectively address the causes of infant mortality, low birth weight and other poor perinatal outcomes for women and infants. Recently, new guidance became available with regards to funding FY 2005 Healthy Start programs.

SUMMARY: Following the Senate Committee's recommendation, the Health Resources and Services Administration (HRSA) will give

funding preference during the FY 2005 competition to current and former Healthy Start grantees, including those whose Healthy Start grant application was approved but not funded in FY 2004.

Senate Report 108-345 at 54 (2004) accompanying the Consolidated Appropriations Act, 2005 (Pub. L. 108-447) states "The Committee urges HRSA to give preference to current and former grantees with expiring or recently expired project periods. This should include grantees whose grant applications were approved but not funded during fiscal year 2004."
