

\$2,800,000 available for program activities. Absent any new specific direction or limitations provided by Congress these funding sources are governed by the following general principles, either by statute or by language in the Work Plan itself:

- Funds from the Energy & Water Appropriation are eligible for use in all programs.
- TAPL funds can only be used for bulk fuel related projects and activities while THUD funds can only be used for Transportation.
- Appropriated funds may be reduced due to Congressional action, rescissions

by OMB, and other federal agency actions.

- All investment amounts identified in the work plan, are “up to” amounts, and may be reassigned to other programs included in the current year work plan, if they are not fully expended in a program component area or a specific project.

- Funds set aside for administrative expenses that subsequently become available, may be used for program activities included in the current year work plan.

Periodic progress updates, phone, virtual, or in-person conversations during a fiscal year with authorized representatives and project directors help ensure grantees are making progress toward meeting program goals and objectives. The information shared with RINAP helps inform the selection and delivery of technical assistance to grantees and aligns structures, processes, and routines so RINAP can monitor the connection between grant administration and intended outcomes. Progress updates also allow RINAP to proactively engage with grantees to identify potential compliance issues ahead of more comprehensive monitoring, decreasing the need for enforcement action and minimizing burden for grantees.
