Notice of Open Meeting of the Environmental Financial Advisory Board

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The United States Environmental Protection Agency's (EPA) Environmental Financial Advisory Board (EFAB) will hold an open meeting. EFAB is an EPA advisory committee chartered under the Federal Advisory Committee Act (FACA) to provide advice and recommendations to EPA on creative approaches to funding environmental programs, projects, and activities.

EFAB is chartered with providing analysis and advice to the EPA Administrator and program offices on environmental finance. The purpose of this meeting is to discuss progress with work products under EFAB's current strategic action agenda and to develop an action agenda to direct the Board's

ongoing and new activities through FY 2006. Environmental financing topics expected to be discussed include: Financial assurance mechanisms; environmental management systems; loan guaranty programs; innovative environmental financing tools; non-point source (watershed) financing; useful life financing of environmental facilities, and affordability of water and wastewater.

The meeting is open to the public, however; seating is limited. All members of the public who wish to attend the meeting must register in advance, no later than Thursday, August 4, 2005.

For information on access or services for individuals with disabilities, please contact Alecia F. Crichlow, U.S. EPA, at (202) 564-5188 or crichlow.alecia@epa.gov. To request accommodation of a disability, please contact Alecia Crichlow, preferably at least 10 days prior to the meeting to give EPA as much time as possible to process your request.

DATES: Monday, August 15, 2005 from 1-5 p.m. and Tuesday, August 16, 2005 from 7:30 a.m.-4:30 p.m.

ADDRESSES: Marriott San Francisco Fisherman's Wharf, 1250 Columbus Avenue, San Francisco, California, 94133.

Registration and Information Contact: To register for the meeting or get further information, please contact Alecia F. Crichlow, U.S. EPA, at (202) 564-5188 or crichlow.alecia@epa.gov.

Dated: July 6, 2005.

Joseph Dillon,
Director, Office of Enterprise Technology & Innovation.

Air Quality Criteria Document for Lead

AGENCY: Environmental Protection Agency.

ACTION: Notice of workshops.

SUMMARY: The U.S. Environmental Protection Agency (EPA) Office of Research and Development's National Center for Environmental Assessment (NCEA) is reviewing and, as appropriate, revising the EPA document, "Air Quality Criteria for Lead," EPA-600/8-83/028aF-dF (published in June 1986) and an associated supplement (EPA-600/8-89/049F) published in 1990. As part of this

process, several workshops are planned to discuss, with invited recognized scientific experts, initial draft materials that deal with various lead-related issues being addressed in the revised "Lead Air Quality Criteria Document" (Lead AQCD) now being prepared by NCEA.

DATES: The first workshop will be held during August 4-5, 2005, and will focus on lead-related ecological issues.

Another workshop to be held August 16-18, 2005, will deal with sources, emissions, environmental distribution, human exposures, biokinetic modeling of lead exposure and uptake, and with biological distribution of lead to blood, bone, teeth and soft tissues. A third workshop, to be held August 17-19, 2005, will deal with lead-related health effects. All the workshops will be held at the Carolina Inn in Research Triangle Park, NC.

FOR FURTHER INFORMATION CONTACT:

Space is limited at the workshops. Please contact Ms. Joanna Hannah at Science Applications International Corporation (SAIC), telephone: 443-402-9361, FAX: 443-402-9854, e-mail: HannahJ@SAIC-abingdon.com to register your attendance at the workshops. SAIC will provide details on the locations and times of each workshop.

For technical information, contact Robert Elias, PhD, NCEA, facsimile: 919-541-1818 or email: elias.robert@epa.gov.

SUPPLEMENTARY INFORMATION: Section 108(a) of the Clean Air Act directs the Administrator to identify certain pollutants which "may reasonably be anticipated to endanger public health and welfare" and to issue air quality criteria for them. These air quality criteria are to "accurately reflect the latest scientific knowledge useful in indicating the kind and extent of all identifiable effects on public health or welfare which may be expected from the presence of [a] pollutant in the ambient air * * *". Under section 109 of the Act, EPA is then to establish National Ambient Air Quality Standards (NAAQS) for each pollutant for which EPA has issued criteria. Section 109(d) of the Act subsequently requires periodic review and, if appropriate, revision of existing air quality criteria to reflect advances in scientific knowledge on the effects of the pollutant on public health and welfare. EPA is also to revise the NAAQS, if appropriate, based on the revised criteria.

Lead is one of six "criteria" pollutants for which EPA has established air quality criteria and NAAQS. On November 9, 2004 (69 FR 64926), EPA
