

TABLE 1—ESTIMATED ANNUAL BURDEN HOURS AND LABOR COST

Information collection	Number of respondents	Total annual burden hours per respondent	Hourly labor cost	Total annual labor cost per respondent	Total annual burden hours	Total annual labor cost
Appendix B—Switch Request Form .....	150	0.5	\$23.80	\$11.90	75	\$1,785.00
Appendix C—Switch Return Form .....	150	0.1	.....	0.00	15	\$0.00
Total .....	300	.....	.....	.....	90	1,785.00

**Estimated Total Annual Burden Cost:** In order to provide the agency with the information requested the respondents must mail, fax, or email the forms. In the previously approved information collection email submission was not an option and there were respondents that used fax to avoid mail delays. We believe that with this information collection respondents will largely opt to use the email submission option. NHTSA estimates there will be no additional costs to respondents that choose to submit the forms electronically. Therefore, assuming all the respondents will mail the forms to NHTSA will be a conservative cost burden estimate (overestimate). Using the above estimates of the number of forms submitted (300 annually), the estimated cost of printing and mailing the forms first-class by individuals (\$1.53 per form), yields a cost burden to the respondents of \$459.00 annually.

**Public Comments Invited:** You are asked to comment on any aspects of this information collection, including (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (b) the accuracy of the Department's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.
