## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Part 52

[EPA-R09-OAR-2022-0439; FRL-9870-03-R9]

### Determination To Defer Sanctions; California; San Diego County Air Pollution Control District

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Interim final determination.

**SUMMARY:** The Environmental Protection Agency (EPA) is making an interim final determination that the California Air Resources Board (CARB) has submitted revised rules on behalf of the San Diego County Air Pollution Control District (SDCAPCD or District) that correct deficiencies in its Clean Air Act (CAA or Act) state implementation plan (SIP) provisions concerning ozone nonattainment requirements for controlling volatile organic compounds (VOCs) from the transfer of organic compounds into mobile transport tanks and concerning a negative declaration for non-Control Techniques Guidelines (CTG) major VOC sources. This determination is based on a proposed approval, published elsewhere in this **Federal Register**, of SDCAPCD's Rule 61.2 regulating the above source category and of the negative declaration for non-CTG major VOC sources. The effect of this interim final determination is that the imposition of sanctions that were triggered by a previous disapproval by the EPA in 2020 is now deferred. If the EPA finalizes its approval of the SDCAPCD's submissions, relief from these sanctions will become permanent.

**DATES:** This rule is effective on June 3, 2022. However, comments will be accepted on or before July 5, 2022.

**ADDRESSES:** Submit your comments, identified by Docket ID No. EPA-R09-OAR-2022-0439 at <https://www.regulations.gov>. ### I. Background

On December 3, 2020 (85 FR 77996), the EPA issued a final partial approval/partial disapproval for the SDCAPCD's 2008 Eight-Hour Ozone Reasonably Available Control Technology Demonstration for San Diego County (2008 RACT demonstration) that had been submitted by CARB to the EPA for approval. The 2008 RACT demonstration action addressed the SDCAPCD's 2008 ozone standard RACT SIP requirements under the Act. In our 2008 RACT demonstration action, we determined that while the SDCAPCD's SIP revision submittal strengthened the SIP, the submittal did not fully meet the requirements for RACT SIPs under the CAA. Our 2008 RACT demonstration action included a final partial disapproval action under title I, part D of the Act, relating to requirements for nonattainment areas. Pursuant to section 179 of the CAA and our regulations at 40 CFR 52.31, this partial disapproval action under title I, part D started a sanctions clock for imposition of offset sanctions 18 months after the action's effective date of January 4, 2021, and highway sanctions 6 months later.

On December 29, 2020, CARB submitted to the EPA the SDCAPCD's 2020 RACT submittal, which addressed requirements for the 2015 ozone
