Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; NESHAP for Pesticide Active Ingredient Production (Renewal), EPA ICR Number 1807.04, OMB Control Number 2060-0370

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR which is abstracted below describes the nature of the collection and the estimated burden and cost.

DATES: Additional comments may be submitted on or before May 14, 2008.

ADDRESSES: Submit your comments, referencing docket ID number EPA-HQ-OECA-2007-0057, to (1) EPA online using <http://www.regulations.gov> (our preferred method), or by e-mail to docket.oeca@epa.gov, or by mail to: EPA Docket Center (EPA/DC), Environmental Protection Agency, Enforcement and Compliance Docket and Information Center, mail code 2201T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Learia Williams, Compliance Assessment and Media Programs Division, Office of Compliance, Mail Code 2223A, Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; telephone number: (202) 564-4113; fax number: (202) 564-0050; e-mail address: williams.learia@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On March 9, 2007 (72 FR 10735), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to both EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under docket ID number EPA-HQ-OECA-2007-0057, which is available for public viewing online at <http://www.regulations.gov>, in person viewing at the Enforcement and Compliance Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket is (202) 566-1927.

Use EPA's electronic docket and comment system at <http://www.regulations.gov>, to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov>, as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. Title: NESHAP for Pesticide Active Ingredient Production (Renewal).

ICR Numbers: EPA ICR Number 1807.04, OMB Control Number 2060-0370.

ICR Status: This ICR is scheduled to expire on June 30, 2008. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The National Emissions Standards for Hazardous Air Pollutants (NESHAP) for Pesticide Active

Ingredient Production were promulgated on June 23, 1999 (64 *FR* 33550).

Owners or operators of pesticide active ingredient (PAI) production facilities to which this regulation applies must choose one of the compliance options that are described in the rule or install and monitor a specific control system that reduces hazardous air pollutant (HAP) emissions to the compliance level. The respondents are subject to sections of subpart A of 40 CFR part 63 relating to the National Emission Standards for Hazardous Air Pollutants (NESHAP). These requirements include those associated with the applicability determination; the notification that the facility is subject to the rule; and the notification of testing (control device performance test and continuous monitoring system [CMS] performance evaluation); the results of performance testing and CMS performance evaluations; startup, shutdown, and malfunction report; and semiannual or quarterly summary reports and/or excess emissions and CMS performance reports. In addition to the requirements of subpart A, many respondents are required to submit pre-compliance plan and leak detection and repair (LDAR) reports; and plants that wish to implement emissions averaging provisions must submit an emission averaging plan.

Respondents electing to comply with the emission limit or emission reduction requirements for process vents, storage tanks, or wastewater must record the values of equipment operating parameters as specified in 40 CFR 63.1367 of the rule. If the owner or operator identifies any deviation resulting from any known cause for which no federally approved or promulgated exemption from an emission limitation or standard applies, the compliance report will also include all records that the source is required to maintain that pertain to the periods during which such deviation occurred, as well as the following: The magnitude of each deviation; the reason for each deviation; a description of the corrective action taken for each deviation, including action taken to minimize each deviation and action taken to prevent recurrence; and a copy of all quality assurance activities performed on any element of the monitoring protocol.

Owners or operators of PAI production facilities subject to the rule must maintain a file of these measurements, and retain the file for at least five years following the date of such measurements, maintenance reports, and records. All reports are sent

to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office. This information is being collected to assure compliance with 40 CFR part 63, subpart MMM, as authorized in section 112 and 114(a) of the Clean Air Act. The required information consists of emissions data and other information that have been determined to be private.

Since many of the facilities potentially affected by the NESHAP standards are currently subject to new source performance standards (NSPS), the standards include an exemption from the NSPS for those sources. That exemption eliminates a duplication of information collection requirements.

In the Administrator's judgment, pollutants emitted from PAI production facilities cause or contribute significantly to air pollution that may reasonably be anticipated to endanger public health.

An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Number for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 60 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Pesticide active ingredient production.
Estimated Number of Respondents: 88.

Frequency of Response: Initially, quarterly and semiannually.

Estimated Total Annual Hour Burden: 24,168.

Estimated Total Annual Cost: \$1,895,079, which includes \$236,430

annualized capital costs, or \$116,600 in O&M costs, and \$1,542, 049.

Changes in the Estimates: There is a slight increase of four labor hours which was caused by a calculation error in the previous ICR. This did not affect or changed the burden or cost in any way as compared to the previous ICR. The regulations have not changed over the past three years and are not anticipated to change over the next three years. Since the growth rate for the industry is very low, negative or non-existent, there is no significant change in the overall burden.

Since there are no changes in the regulatory requirements and there is no significant industry growth, the labor hours and cost figures in the previous ICR are used in this ICR and there is no change in burden to industry.
