

because the revisions are non-substantive; for example, we revised the CPGs' formats to be consistent with other CPGs, included references to other aflatoxins CPGs, and included a reference to the Memorandum of Understanding between USDA/AMS and FDA. Given the minor nature of these revisions, an opportunity for public comment before we finalize the CPGs is unnecessary. However, as is the case for all guidance documents, the public may comment on any guidance document at any time (§ 10.115(g)(5)).

The guidances represent the current thinking of FDA on this topic. They do not establish any rights for any person and are not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations.

These four CPGs update the previously issued "CPG Sec. 555.400 Foods—Adulteration with Aflatoxin," "CPG Sec. 570.200 Brazil Nuts—Adulteration with Aflatoxin," "CPG Sec. 570.375 Aflatoxin in Peanuts and Peanut Products," and "CPG Sec. 570.500 Pistachio Nuts—Aflatoxin Adulteration." The CPGs are intended to provide guidance for FDA staff regarding adulteration in human food, Brazil nuts, peanuts and peanut products, and pistachio nuts due to the presence of aflatoxins and explain when we may consider such foods to be adulterated under section 402 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 342).
