BILLING CODE 3190-W6-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Public Notice for Waiver of Aeronautical Land-Use Assurance; Gary/Chicago International Airport; Gary, IN

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of intent of waiver with respect to land.

SUMMARY: The Federal Aviation Administration (FAA) is considering a proposal to change a portion of the airport from civilian aeronautical use to military aeronautical use and to authorize the lease of the airport property. The area is a twenty-five acre parcel located in the southwest quadrant of the airport south of Runway 12/30 and west of Runway 2/20. The land is vacant and is used as a stockpile area for various construction materials and was the former site of a Nike missile silo battery. The land had been transferred to the City of Gary in 1947 by Quitclaim Deed from the Reconstruction Finance Corporation as non-surplus property as defined by section 16 of the Federal Airport Act of 1946. Public Law 102-148, dated October 10, 1991 released the land from the section 16 restriction requiring Congressional action for land releases and authorized the FAA to administer land releases. There are no adverse impacts to the airport by allowing the airport to lease the property. The land is not needed for civilian aeronautical use and a Limited Army Aviation Support Facility helicopter base, which will be operated by the Indiana National Guard, will be constructed on the property. A Joint-Use Agreement will be negotiated between the Indiana National Guard and the airport that will address all fees, charges, and assessments for services such as snow removal, fire fighting and fueling. Approval does not constitute a commitment by the FAA to financially assist in the disposal of the subject airport property nor a determination of eligibility for grant-in-aid funding from the FAA. The disposition of proceeds from the lease of the airport property will be in accordance with FAA's Policy and

Procedures Concerning the Use of Airport Revenue, published in the **Federal Register** on February 16, 1999.

In accordance with section 47107(h) of title 49, United States Code, this notice is required to be published in the **Federal Register** 30 days before modifying the land-use assurance that requires the property to be used for an aeronautical purpose.

DATES: Comments must be received on or before April 17, 2006.
